Experience the Joy of Gardening!

The Pride of the First Harvest

The Wonder of the first Seedling

The Peace of the quiet outdoors

The JOY of sharing with our Family and Friends

Gardening is FUN with Heirlooms!

Amazing Flavor!

Heirlooms are packed with delicious flavor. Grown by home gardeners, they have been chosen for the best taste, sweet, rich, and delicious! If you haven't tried an heirloom, you don't really know what its supposed to taste like.

Beautiful Colors!

Heirlooms are known for their beautiful colors. White cucumbers, striped zucchini, black tomatoes, and striped beans are just a few of the delights of heirlooms! Grow a garden that is a delight to the eyes!

Interesting Textures!

Heirlooms come in all shapes and sizes and textures. There's an heirloom for every garden and every palate. Grow one of our signature blends to enjoy all the variety that heirlooms provide.

Hello Everyone!

How has your year been? I hope it was a wonderful as our year Annie's. Last spring, the night after packing up and dropping off the last of the potatoes, Rebecca had her daughter, Vera. They spent most of the summer moving into their new home, but now Vera and Rebecca are back to work. It is fun having a baby around again!

Sam was working hard at the outdoor gardens this year. She's been amazing at keeping everything weeded, tended and growing beautifully. She's been having fun testing new varieties and learning exactly how much fun it is to taste test everything. Summers at Annie's can be a lot of fun!

It's hard to believe, but the kids are growing up. Carl is turning 16 and will be driving very soon. His passion is robotics, and his team did very well last year. Anne and Lia are involved in dance and violin. Lots of driving to fit into life, but they are all having fun and making friends.

Thank you all for the kind words this past year. My health is much improved, and I'm excited about what the future will bring. As I like to say, I play the guinea pig in experiments with my health. Nothing dangerous, but my doctor works with me to figure out diet and nutrition that might make a difference for me, and this last year he hit on something big. I'm in better shape than I've been in years, and it looks like I have a long future of feeling this good to look forward to.

Next year's garden is going to look different again. The best veggies for me are celery, leeks, green onions, peas and beans. I'll be preserving again, but nothing like I did in the past. Lots of frozen peas and beans. Scott loves the tomatoes, peppers, and salads. I have plans for lots of tomato sauce and fun salsas. I'm also thinking about making some interesting fermented hot sauces! I'm already looking forward to it!

Does your garden change through the years, or does your family have their favorites? I find that I'm always finding something new to add. And then I rediscover an old favorite, and it's new again!

-Julie

Annie's Certified Organic Seeds

Organic seeds are grown to strict standards, certified by agencies, and handled under similar strict standards. Purchasing Certified Organic Seeds lets you know that you are doing your part to keep our environment clean and healthy. Support the farmers and companies growing without commercial pesticides and fertilizers.

Here at Annie's we have a full line of Certified Organic Seeds. We have worked hard to source heirloom varieties of Organic seeds in every vegetable, so you don't have to compromise.

Untreated Seeds

At Annie's, we only sell untreated seeds. You don't have to worry about chemicals on your seeds, about you, your children or your pets accidentally ingesting something harmful from your seeds.

But untreated seeds are more delicate. Those chemicals keep the seeds from rotting when the soil conditions aren't optimal. It means that you need to plant your seeds at the right time, waiting until the soil is warm enough for the seeds to germinate. All you need is to wait until the weather warms and the soil temperatures are above 60 F to plant your beans, corn and squash.

Only the Best Varieties!

We test every variety so that we know we have only the best heirloom vegetable varieties.

If we don't like it, we don't sell it!

Why are we so passionate about Heirlooms?

What is an Heirloom?

Heirlooms are Open Pollinated

Open pollinated means that they breed true. When you breed a Delicata Squash to a Delicata Squash, the seeds will be for a Delicata Squash. That will continue to the next generation. A hybrid is when you breed a Delicata Squash to a New England Pie Pumpkin. You'll get a new variety, let's call it the DeliPie Squash. If you breed two DeliPie Squashes together, the next generation will be a mess. They won't be like the DeliPie, and they might not even be fertile.

Heirlooms always breed true.

Heirlooms are Old

How old? Here at Annie's we strive for at least 50 years old. Why old? Because they've been around long enough to have seen most diseases and a lot of pests. They have survived and thrived for generations.

What Heirlooms are Not:

Heirlooms are **NOT** GMO

Heirlooms are **NOT** F1 HYBRIDS

Heirlooms are **NOT OWNED BY ANYONE**, you can save your seeds and share them with anyone.

Why should I Grow Heirlooms?

There are so many reasons, here are my favorites:

For the **Home Gardener**, they were saved because someone loved them and wanted them and saved the seeds from their favorite vegetables. They are adapted to home gardens, usually from people gardening organically. They have seen pests and diseases and have developed natural resistance to them.

They **Taste Better**. Why would someone save seeds from something that doesn't taste good? Home gardeners aren't worried about how long it keeps on a grocery store shelf, or how pretty the outside looks a week after being picked. We want it to taste good, and heirlooms just taste a lot better than modern hybrids.

Help **Preserve Biodiversity**. With modern farming, the genetics is based around a few varieties. It's the home gardener that keeps alive all the different varieties. These varieties may some day be needed to solve problems that the modern farms face.

Connection to **History**. Become a part of the history of the seeds. Grow a garden that tells a story of good food and healthy lives for us and our gardens and our world.

I want to garden, but how do I get started?

Do something! Grow a few herbs on your windowsill or in a planter box on your deck. Grow a tomato in a pot. Plant a lettuce bowl. These are some of the simple things you can do to begin gardening and enjoying fresh vegetables. We've put together a few kits to help you overcome that first hurdle of gardening. From a small pot on your windowsill to a larger fabric raised bed, anyone can garden anywhere.

Raised Bed Planters

Just unfold, lay out and fill with soil. Go buy some bags of compost and soil or have some delivered, and you are ready to get started gardening.

- Long Big Bag (6 ft x 16 in x 16 in) \$56.00
- Big Bag (round, 50 in.) \$40.00
- Big Bag Jr. (round, 36 in.) \$25.00
- Big Bag Mini (round, 24 in.) \$15.00

Herb Pot

Everything you need for a beautiful little herb pot. Put it in a sunny window or on your porch or deck. Choose from four different herb collections, each containing 4 wonderful herbs to enjoy. Italian, Greek, French or Asian.

Herb Pot \$28.00

Tomato Pot

Everything you need to grow your first tomato plant. A large fabric pot, a trellis for your tomato plant, some basil seeds to plant all around the tomato plant, and even a tomato plant! We'll send you everything in May when your tomato is ready to ship. All you provide is the 9 gallons of soil, water and enjoy!

Tomato Pot \$50.00

Can't Find it? We'll do our best to help, Just give us a call!

Annie's Gardens

Are you new to heirlooms? Looking for a great gardening gift? Don't know what varieties to choose? Or do you just not have time to plan your garden? Take the frustration out of planning your garden with our pre-planned Gardens. Either a whole garden or maybe just adding in some herbs and companion flowers, these gardens make it easy to build your perfect garden.

And take advantage of some savings too.

See our website, AnniesHeirloomSeeds.com, for a list of the exact varieties in each garden.

prices!

Annie's Vegetable Gardens

Beginner's Garden

With just 6 fun, easy, rewarding vegetables, this is a great way for the beginner to get started. Soil, water, and possibly a trellis is all you need to harvest delicious beans, cucumbers, zucchini, radishes, lettuce and basil.

Heirloom (6 varieties) \$14.75

Annie's Salsa Garden

Rebecca's sister Annie loves her salsa garden! This garden has the tomatillos, tomatoes and peppers you need for all kinds of delicious salsas, and of course some cilantro to finish it off.

Heirloom (5 varieties) \$12.25

Rebecca's Family Garden

If your family loves veggies, or you want them to, then this is the garden for you. Rebecca helped design this wonderful garden with a wide variety of amazing vegetables that will feed your family all summer long and even into early winter. With 22 different vegetables, 4 herbs and 3 companion flowers, this garden has everything you need to grow and eat the best imaginable.

Heirloom (27 varieties) \$76.75

Annie's Favorites Garden

It can be difficult to choose which vegetable variety to grow. We grew them all and picked our favorites. Our favorite was chosen for being the best combination of taste, hardiness, reliability and yields. This garden has 35 different vegetables that are sure to please!

Heirloom (35 varieties) \$90.25

Julie's Dream Garden

Every year I dream of the garden I want to grow. This is my garden, full of my favorites and the things that I love to grow. With 51 vegetables, 6 herbs and 4 companion flowers, it has everything you need to grow the most amazing garden. I love to grow from early spring through late fall and this garden has it all.

Heirloom (60 varieties) \$165.00

Beginner's Seed Saving Garden

Would you like to start saving your own seeds? Do you want to have a seed bank of easy to grow and save seeds? This collection includes some of the easier vegetables to save your own seeds. We've included the basic information on saving seeds from each vegetable in the garden.

Heirloom (14 varieties) \$34.75

Advanced Seed Saving Garden

Seed saving can be tricky, and this collection includes some of the harder to save vegetables. Some need to be overwintered, others are more difficult to prevent from cross pollinating, and yet others are difficult to harvest. We recommend purchasing the book *Seed to Seed* for instructions.

Heirloom (11 varieties) \$26.75

Garden & Seed to Seed \$54.75

Fall Garden

When the temperatures drop and the first frost comes, it doesn't have to be the end of your garden. These fall vegetables thrive in the cooler temperatures of fall. Extend your fresh eating season months past first frost. Plant these 10 different greens, roots and brassicas in late summer to enjoy throughout the fall.

Heirloom (10 varieties)

\$24.00

Overwintering Garden

These started out as happy accidents, vegetables I didn't have time to take out in the fall that sprung to life the following spring. Now I plant them intentionally, vegetables that can be started in the fall to be harvested at the first signs of life in the spring. Imagine eating fresh from the garden a month before the first spinach is ready to eat!

Heirloom (9 varieties)

\$21.00

Annie's Favorites

The best tasting, the best performing and the most reliable, these are the varieties we turn to year after year.

Don't know what to choose?
Annie's Favorites will never disappoint!

Look for the carrot for our favorite vegetable varieties.

Heirloom Vegetables

Artichokes and Cardoon

Artichokes are a warm climate perennial. The fruit of the artichokes is actually the unripe flower, while cardoon is grown for the delicious leaves. If you live in zones 7 and warmer, artichokes are a wonderful perennial vegetable for you. If you are in zones 5 and 6 you might be able to grow them if you are careful to protect them during the winter.

Green Globe Artichoke

88 days. Green Globe produces nice, large, green globe shaped artichokes. A hardy variety that can be overwintered with some care, it is also the choice for growing as an annual in the north.

Heirloom (min. 50 seeds) \$2.75

Violet de Provence Artichoke

This French heirloom artichoke produces larger purple artichokes, similar to Green Globe in shape. It is known for it's excellent flavor. Really a stunning addition to your warm climate perennial garden.

Heirloom (min. 15 seeds) \$3.50

Gobbo di Nizza (Hunchback of Nice) Cardoon

The famous 'Hunchback' strain of cardoon with thick, almost spineless stems. Blanching the stems for two weeks prior to harvest ensures tender and delicious stalks. Just wrap in newspaper or a floating row cover.

Heirloom (min. 50 seeds) \$3.50

Cardoon

Artichoke Flower

Asparagus Starts

Asparagus

Asparagus is a wonderful perennial vegetable. It grows well in zones 3-8, so most of us can grow it. It is one of the first vegetables of spring, harvesting the tender shoots, and a properly tended asparagus patch will last up to 30 years.

Argenteuil Asparagus

This French variety is traditionally grown for white asparagus. It produces nice green asparagus if the stalks aren't blanched. You can expect edible stalks in 2-3 years, a year faster than other varieties.

Heirloom (min. 50 seeds) \$2.75

Connover's Colossal Asparagus

An old American asparagus variety, Connover's Colossal has been almost lost. The modern trend towards pencil thin asparagus has taken us away from the wonderful, larger asparagus varieties. Connover's gives you high yields from large, tender spears. Less work for more delicious asparagus!

Heirloom (min. 25 seeds) \$3.25

Mary Washington Asparagus

The traditional American asparagus. It is easy to grow with good yields and flavorful, tender stalks. Expect 3-4 years until the first harvest, but it's well worth the wait.

Heirloom (min. 50 seeds) \$2.75

Beans

Beans are a summer garden staple. From fresh snap beans to dry beans, they feed us throughout the year. Pole or Bush, snap or shelling, there is a bean for every garden.

Bush Snap Beans

Bush beans grow low to the ground, only 1-2 feet tall, and don't require trellises or staking. Faster to harvest than pole beans, they are a great choice for early summer beans or for those with a short growing season.

Annie's Rainbow Beans

Our rainbow beans are a collection of green, yellow, purple and striped beans, making for a colorful garden as well as a beautiful and delicious meal. Chosen to provide beans over a longer period, this blend will give you a nice harvest of beans over a longer period than just planting one variety. Contains a mix of Dragon's Tongue, Golden Wax, Provider and Royal Burgundy.

Heirloom (min. 80 seeds) \$3.50
Heirloom Organic (min. 40 seeds) \$4.50

Blue Lake Bush Bean

53-58 days. With nice yields of long, thin, straight, green pods on petite bush plants, Blue Lake is one of the old standards. Still grown as one of the main commercial varieties, it has that familiar bean flavor and nice yields when grown in good soil, but does not perform well in adverse conditions.

Heirloom (min. 80 seeds) \$2.75
Heirloom Organic (min. 40 seeds) \$4.50
Heirloom Bulk (min. 500 seeds) \$8.75

Bobis D'Albenga Bush Bean

56 days. A rare and beautiful variegated pod bush snap bean. Known in Italy for its excellent flavor, it also performs well in hot conditions. These beautiful pods turn dark green when cooked, but that is when their wonderful flavor comes through.

Heirloom (min. 80 seeds) \$3.00

Contender Bush Bean

50 days. With its huge yields of tender, flavorful green pods, Contender is my favorite bean. Throughout the years I have grown many beans, but I keep coming back to this wonderful old time favorite. It has a delicious bean flavor, and stays tender even when large. The top beans grow straight, but the lower beans tend to curve when they are near the ground.

Heirloom (80 seeds) \$3.00
Heirloom Bulk (400 seeds) \$9.00

Dragon's Tongue Bean

50-65 days. These gourmet wax beans are known for their beauty, with flat ivory pods decorated with purple stripes. They are also really flavorful and tender even when large.

Heirloom (min. 80 seeds) \$3.25
Heirloom Organic (min. 40 seeds) \$4.50

Dragon's Tongue Bean

Fin de Bagnol Bean

49-57 days. When picked young, these French filet beans are tender, flavorful, and delicious. The beans are long and thin with a long point at the end and grow on large, bush plants. They will get stringy if you don't pick them young.

Heirloom (min. 80 seeds) \$3.00

Golden Wax Bean

52 days. One of my favorite beans, it has a beautiful pale yellow color and a tender and crisp texture. Firm and delicious, it rivals Contender for flavor, a real gem for a wax bean!

Heirloom (min. 80 seeds) \$2.75
Heirloom Organic (min. 40 seeds) \$4.50

Masai Bean

55 days. This dwarf, gourmet French filet bean is a wonderful choice for container gardeners. It produces lots of straight, tender, green pods at the top of petite plants. It is also one of the best flavored beans and stays tender for several days, making them a bit more care-free than other filet varieties.

Heirloom (min. 40 seeds) \$2.75

Provider Bush Bean

50 days. With straight, round, delicious beans, Provider is an excellent bush bean. The best tasting raw bean, it also is wonderful cooked. It can be planted earlier than other varieties because it can germinate at lower temperatures. We found it to perform really well in our cool climate, giving us crop after crop of beans.

Heirloom (min. 80 seeds) \$2.75
Heirloom Organic (min. 40 seeds) \$4.25
Heirloom Bulk (min. 500 seeds) \$8.50

Roma II Bush Bean

59 days. Easy to grow and prolific, Roma II is a wonderful Roma-type bean. Large, flat, delicious beans cook up beautifully for a real Italian treat.

Heirloom (min. 40 seeds) \$2.75

Royal Burgundy Bush Bean

55 days. Deep purple when raw, Royal Burgundy beans are straight, round, and cook up dark green. The beans are really firm and crisp. They are a good choice for canning or for those who like firm beans.

Heirloom (min. 80 seeds) \$2.75
Heirloom Organic (min. 40 seeds) \$4.25

Provider and Golden Wax Beans

Tendergreen Improved Bush Bean

52 days. Known for its high yields and heat tolerance, Tendergreen Improved produced well over a long period. It is also an excellent variety for later season planting.

Heirloom (min. 80 seeds) \$2.75

Bean planting tip:
Wait for the soil to warm
to 60°F before planting
your beans.

Bush Shelling Beans

Some of our most popular shelling beans are bush beans. With such a wide range of shapes, colors and sizes, there's a bush bean for everyone. They grow low to the ground, and are easy and care-free. Just plant them, weed, and let the beans mature and dry.

Black Turtle Bush Bean

100 days. One of the most popular beans in Mexican cuisine, Black Turtle is the most common heirloom variety of small black shelling bean. It has a deep, earthy, rich flavor, making it wonderful for refried beans and soups.

Heirloom (min. 80 seeds) \$3.25

Borlotto Lingua di Fuoco Bean

Dazzling, bright pink striped beans, this is one that will be a standout in your garden. You can eat them as a snap bean, fresh shelling bean or dry bean. What a special Italian bean!

Heirloom (min. 80 seeds) \$3.25

Calypso Bean

90 days. Also known as Orca or Yin Yang, this strikingly colored black and white heirloom bean is also delicious. Sweet and nutty, it holds its shape when cooked, making it a great choice for beautiful soups and stews. It is dependable and has good yields.

Heirloom Organic (min. 40 seeds) \$4.25

Cannellini Lignot Bean

100 days. Also known as White Kidney Bean, this Italian staple is a key ingredient in minestrone soup and most southern Italian soups and stews.

Heirloom (min. 80 seeds) \$3.50

Dark Red Kidney Bush Bean

95 days. A traditional bean for chili and other southwestern dishes, it is a beautiful deep red bush shelling bean. It has a tougher skin than other beans, which makes it a great choice for soups and stews because it will retain its shape even when cooked.

Heirloom (min. 40 seeds) \$3.50

Garbanzo (Chickpea) Bean

65 days. Garbanzo beans are a staple in Middle Eastern and Indian cooking. We love them in hummus, falafel and curries. They are an excellent choice for dry areas, but they don't do well in northern climates.

Heirloom (min. 40 seeds) \$3.50

Great Northern Bush Bean

90 days. A white bush shelling bean, Great Northern is a staple in American cooking. A firmer bean, it retains its shape well when cooked. It is slightly smaller than the cannellini bean with a slightly grainy texture and a nutty flavor.

Heirloom (min. 80 seeds) \$2.75

Heirloom Bulk (min. 500 seeds) \$9.00

Painted Pony Bush Bean

60 days for snap, 80 days for dry. A great dual purpose bean. You can pick it early as a nearly stringless snap bean or leave it to dry for beautiful dry beans. They are great for soups and chili, retaining their shape when cooked.

Heirloom Organic (min. 40 seeds) \$4.00

Jacob's Cattle Bean

90 days. Named after the spotted cattle in the biblical story, it was originally cultivated by the Passamaquoddy Indians in Maine. It is one of the standards for baked beans in the Northeast. It is well adapted to growing in areas with cool summers.

Heirloom (min. 80 seeds) \$2.75

Pinto Bush Bean

90 days. A popular tan, speckled Mexican bean, Pintos have many uses. Nutty and slightly grainy, they are great for refried beans, Mexican pot beans, or in any number of your favorite bean dishes.

Heirloom (min. 80 seeds) \$2.75

Heirloom Bulk (min. 500 seeds) \$9.00

Vermont Cranberry Bush Bean

85 days. This New England heirloom dates back to the 1700's. It is a dual-purpose bean, eaten fresh at 60 days, or left to dry for a shelling bean. It performs well in the cooler climates in the north, and are very reliable and hardy with a great flavor. It is excellent in soups and baked beans.

Heirloom (min. 80 seeds) \$3.00

Jacob's Cattle Bean

Lima Beans - Bush

Lima beans are a Southern treat, requiring heat and a long growing season. Bush limas are the best choice for Northern growers, given their shorter growing season.

Fordhook Lima Bean

75 days. Huge pods of large, delicious, tender lima beans grow on bush plants. This is my favorite lima bean. It is one of the earliest lima beans, so it is a great choice for northern growers.

Heirloom (min. 40 seeds) \$3.00

Henderson's Butter Bean

60-75 days. The first Henderson's plants were found along the side of the road in Lynchburg, VA in 1883. This bush baby lima bean is early, hardy, prolific, drought tolerant, and it tastes great!

Heirloom (min. 80 seeds) \$3.00

Heirloom Bulk (min. 500 seeds) \$9.00

Lentils

Lentils are a staple in Mediterranean cooking. Grown throughout the Mediterranean region in the winter months, they are a wonderful choice for a cooler climate bean.

French Green Lentil

100 days. With dark green splotches on light green seeds, these lentils are both beautiful and delicious. Known for its slight mineral flavor, these French heirloom lentils retain their shape upon cooking and cook slightly faster than other varieties. This is my favorite lentil for salads.

Heirloom (min. 120 seeds) \$2.75

Pardina (Spanish Brown) Lentil

115 days. Grown for generations in the Pyrenees region of Spain, these lentils were originally brought to the United States in 1980. They hold their shape even when cooked and are a delicious addition to soups.

Heirloom (min. 120 seeds) \$2.75

Pole Beans

Growing on long, climbing vines, pole beans are a great choice for those with space constraints, having your beans grow up instead of out. Slower to produce than bush beans, pole beans produce a steady crop of delicious beans over a longer period of time. And you can harvest them standing up. But beware, you may need a ladder! I love growing pole shelling beans because they grow up off the ground out of the weeds and are free to blow in the wind late in the season, speeding the drying time and preventing moldy seeds.

Bean Pole Trellis Topper

These are really neat bean pole trellises designed for us by a machinist friend. Purchase a length of 1/2" electrical conduit, insert the topper into the conduit, drive the other side of the conduit into the ground, tie strings down from the topper to the ground, and secure the strings into the ground with the provided J-hooks. Voila! Instant trellis, perfect for beans and morning glories. Even better, there's tremendous flexibility in height, as you can make the conduit any length you want. Included in each kit is one bean pole topper and 8 J-hooks.

Bean Pole Trellis Topper \$12.00

Bean Pole Trellis Topper

Pole Snap Beans

Kentucky Blue Pole Bean

60 days. This was Grandma Annie's favorite pole bean. My mother remembers two vegetables from her mother's garden, tomatoes and Kentucky Blue Lake beans. Now called the Kentucky Blue Bean, it was developed from the Kentucky Wonder and Blue Lake Pole beans, and takes on the best traits of each. With tender, delicious beans that are stringless when picked young, they rival any bush bean, and surpass many with their excellent flavor. A great all-purpose bean for fresh eating as well as canning.

Heirloom (min. 40 seeds) \$3.25

Kentucky Wonder Pole Bean

58-68 days. The old standard for pole snap beans. When picked young, it is almost stringless and very tender. Pole beans are known for having the old fashioned bean flavor that is lost in some of the modern, extremely mild beans.

Heirloom (min. 80 seeds) \$3.00
Heirloom Organic (min. 40 seeds) \$4.50
Heirloom Bulk (min. 500 seeds) \$8.75

Lazy Housewife Pole Bean

75-80 days. One of the oldest varieties of pole beans, it was brought to this country by German immigrants and introduced in the early 1800's. We don't know if the name comes because they are one of the first stringless beans or if they can be picked while standing up, but we do know they are prolific and delicious. A large seeded variety, pick it young for a snap bean or leave to dry for a shelling bean.

Heirloom (min. 40 seeds) \$3.25

Marvel of Venice Pole Bean

54 days. This has become one of my favorite beans. It is really early, producing lots of delicious, tender yellow wax beans. They are beautiful, flat, long beans that are stringless when picked young.

Heirloom (min. 40 seeds) \$3.25

Purple Pod Pole Bean

67-75 days. Discovered in the Ozarks in 1930 by Henry Fields, this purple podded bean is productive and delicious. These purple beans are nearly stringless and cook up green.

Heirloom Organic (min. 40 seeds) \$4.25

Rattlesnake Pole Bean

65 days. Rattlesnake is a very pretty bean, green with small purple stripes. It grows very tall, over 8 feet, and the beans are easier to pick because the purple striping makes them stand out against the foliage. Drought resistant, it's a good choice for those who face times of reduced rainfall.

Heirloom (min. 40 seeds) \$3.25

Marvel of Venice Pole Bean

Pole Shelling Beans

Annie's Pole Shelling Bean Collection

I love growing pole shelling beans, and my favorite thing is to grow a wide variety of them. This collection has 4 different pole shelling bean varieties.

Pole Shelling Bean Collection \$13.00

Cannellini Pole Bean

90 days. Also known as White Kidney Bean, this Italian bean was brought to the US in the 1800's. It has a rich, nutty flavor and is the primary dry bean used in Italian cooking.

Heirloom (min. 20 seeds) \$3.25

Cherokee Trail of Tears Bean

85 days. This is the bean that was carried by the Cherokee Indians from Georgia to Oklahoma when they were driven from their homeland. A nice black pole bean, it can also be eaten as a snap bean.

Heirloom (min. 40 seeds) \$2.75

Good Mother Stallard Bean

85-95 days. A wonderful pole shelling bean, Good Mother Stallard is both beautiful and delicious. It has an excellent rich meaty flavor, and it holds its shape well in soups and stews.

Heirloom (min. 40 seeds) \$3.00

Hidatsa Shield Figure Bean

90 days. From the Hidatsa tribe from the Missouri valley in North Dakota, this is one of the

most beautiful shelling beans. Pale cream with a gold saddle, it is very distinctive. It cooks up creamy and sweet.

Heirloom Organic (min. 40 seeds) \$4.25

Purple Pod Pole Bean

Mountain Pima Pinto Pole Bean

Originally from the Sonora Mountains in Mexico, this is a wonderful pole form of the pinto bean. It is a longer season bean, but has high yields once it begins to produce. Limited quantities available.

Heirloom (min. 20 seeds) \$3.50

Scarlet Runner Bean

65 days. Spectacularly beautiful, Scarlet Runner bean is one of the oldest runner beans known, dating back to the 1700s. With its vibrant red flowers, it's a striking centerpiece to your vegetable garden.

Heirloom (min. 20 seeds) \$3.00

Tarbais Bean

90 days. The Tarbais Bean comes from the southern French village of Tarbais where they have been grown since the 1700s. It is known for its extremely thin skin and lower starch content which makes it easier to cook and easier to digest. It is known for its excellent flavor and is traditionally used in French cassoulet.

Heirloom (min. 20 seeds) \$3.25

Asparagus Beans - Pole

Also known as Chinese long beans, asparagus beans are a delicacy of South East Asia.

They thrive in hot and humid conditions when other beans fail to produce well. An excellent choice for those who live in the South for summer bean production.

Kurosanjaku Asparagus Bean

Kurosanjaku Asparagus Bean

75 days. One of the most popular varieties of long beans grown, this black seeded variety produces high yields of stringless beans with a sweet and crunchy pod. This variety is very mildly flavored, with more sweet and less mustard flavor than other asparagus bean varieties.

Heirloom (min. 40 seeds) \$3.25

Red Noodle Asparagus Bean

90 days. Beautiful red beans that turn green when they are cooked, Red Noodle is a spectacular long bean. Large harvests of long delicious beans make this a wonderful choice to grow for stir-frys and your favorite Asian dishes.

Heirloom (min. 40 seeds) \$3.25

Hidatsa Shield Figure, Good Mother Stallard, Tarbais, Cherokee Trail of Tears, Cannellini Pole, and Mountain Pima Pinto Pole Beans

Midori Giant Soybean

Lima Beans - Pole

Pole lima beans have huge beans and very tall plants. You will need to give them plenty of room to grow, mine far outgrew my 9 foot poles.

Christmas Lima Bean

80 days. What a beautiful and delicious pole lima bean! Huge beans are creamy white striped with burgundy. One of the best tasting beans, they cook up creamy and delicious. Add in high yields and early maturity, and it's an excellent choice for a pole lima bean.

Heirloom (min. 35 seeds) \$3.00

Mr. Lowe's Butter Bean

We received these seeds from a customer. They were given to him by Mr. Lowe who had been growing them for decades, and it is a really special bean. A butterbean, but instead of growing on bush plants, it grows in a pole habit. It is the earliest pole lima bean that I've grown and is a good choice for Northern growers. Limited quantities available.

Heirloom (min. 20 seeds) \$3.25

Sieva (Carolina) Lima Bean

This pre-1750 lima bean was one of Thomas Jefferson's favorites. It produces good yields of small, white lima beans that have a great flavor.

Heirloom (min. 40 seeds) \$3.25

Fava Beans - Bush

Fava beans, a staple of ancient Rome, produce large delicious beans. Grown in cool conditions, they are best grown over the winter in the South or as an early spring crop in the North.

Broad Windsor Fava Bean

65-85 days. Listed as far back as 1863, the Broad Windsor fava bean is an excellent fava bean. Planted like peas, in the cool spring, it produces large pods containing 5-7 beans.

Heirloom (min. 20 seeds) \$3.00

Soybeans (Edamame)-Bush

Midori Giant Soybean

68 days. A traditional edamame soybean, Midori is early maturing with very large seeds. It has high yields, and does well in all regions of the US.

Heirloom Organic (min. 40 seeds) \$4.25

Lanco Soybean

It is thought to be named after Lancaster County Pennsylvania, where this soybean has been grown for many years. It was probably brought to PA from Asia in the early 1900's. It has large, pale green, mild and nutty seeds. Harvest before the seeds fill the pods.

Heirloom Organic (min. 40 seeds) \$4.00

Mix of Beets

Beets

Easy to grow, reliable, versatile and delicious, beets can be grown from spring through fall, and even overwintered to be enjoyed the next spring. Normally grown for their sweet roots, the greens are also delicious and can be eaten raw in a salad or sauteed.

Annie's Beet Blend

Can't choose? Grow some of everything! With all shapes and colors, Annie's Beet Blend contains a mix of all your favorite beets, Bull's Blood, Burpee's Golden, Chioggia and Detroit Dark Red.

Heirloom (min. 200 seeds)	\$2.75
Heirloom Organic (min. 100 seeds)	\$3.75

Bull's Blood Beet

58 days. A wonderful dual purpose beet, known for its delicious beautiful burgundy leaves and its excellent root. Frequently harvested as baby beets, Bull's Blood is great choice for all your beet needs.

Heirloom (min. 200 seeds)	\$2.50
Heirloom Organic (min. 200 seeds)	\$3.75

Burpee's Golden Beet

55 days. My kids' favorite beet, this round beet with bright green leaves and a golden yellow root has a mild and sweet beet flavor. It is also wonderful because it doesn't stain like red beets, making it a good choice for families with children that always seem to spill a little of their favorite foods!

Heirloom (min. 100 seeds)	\$3.00
Heirloom Organic (min. 100 seeds)	\$4.50

Chioggia Beet

45-55 days. With beautiful rings of red and white, Chioggia is known as the candy cane beet or bull's-eye beet. It hails from the Chioggia region of Italy, next to Venice. It is a mild and sweet beet with delicious green leaves.

Heirloom (min. 200 seeds)	\$2.75
Heirloom Organic (min. 100 seeds)	\$3.50

Cylindra Beet

55-70 days. A Danish heirloom beet, Cylindra is a long cylindrical deep red beet. This makes it great for slicing, producing more uniform slices than a traditional beet. It also has a wonderful, fine grained texture and a great sweet flavor when roasted. It is an excellent choice for canning, pickling, or roasting.

Heirloom (min. 200 seeds)	\$2.50
---------------------------	--------

Detroit Dark Red Beet

58-63 days. Introduced in 1892, this traditional round, red, beet is one of the most popular beets available to gardeners. With a delicious, sweet root, good flavor, and texture, it is great for baby beets, full sized beets, and beet greens.

Heirloom (min. 200 seeds)	\$2.50
Heirloom Organic (min. 200 seeds)	\$3.75
Heirloom Bulk (min. 1000 seeds)	\$6.00

Early Wonder Beet

48 days. The earliest beet we carry, it also has a great, sweet beet flavor. If you want early beets, or have a short growing season, Early Wonder is the beet for you.

Heirloom (min. 200 seeds)	\$2.50
Heirloom Organic (min. 200 seeds)	\$3.75

Burpee's Golden Beet

Bok Choy

Grown for the greens or the crisp, white stalks, bok choy is an asian staple. It is delicious sauteed, in soups, or raw in a salad. It loves cool weather and is quick to harvest, making it a great early spring and fall vegetable.

Dwarf Bok Choy

40 days. This miniature bok choy has crisp white stalks and dark green leaves.

Heirloom (min. 200 seeds) \$2.50

Pak Choi Bok Choy

45-60 days. This is the traditional bok choy you'd see at a Chinese restaurant. With thick white stalks and large green leaves, it is a delicious addition to your spring and fall garden.

Heirloom Organic (min. 200 seeds) \$3.50

Tatsoi Bok Choy

20-50 days. Typically grown for salad greens, Tatsoi forms a rosette of deep green leaves. Harvest it at 20 days for baby greens, or 50 for full sized greens.

Heirloom (min. 200 seeds) \$2.50

Heirloom Organic (min. 200 seeds) \$3.75

Broccoli

Heirloom broccoli is sweet and tender, unlike the bitter and stronger flavors of the modern hybrids. Although we normally just think about the central head of the broccoli plant, it also produces side shoots throughout the entire season, providing a wonderful harvest of small florets every couple of days.

Calabrese Broccoli

58-90 days. Brought to America in 1880 by Italian immigrants, Calabrese produces a tightly packed head up to 8 inches in diameter. After the initial head is harvested, it produces many side shoots up to the first hard frost.

Heirloom (min. 200 seeds) \$2.50

Heirloom Organic (min. 200 seeds) \$3.75

Di Cicco Broccoli

48 days. A wonderful Italian heirloom broccoli. More tender than most broccolis, it has delicate, open florets, and produces lots of side shoots. Our favorite broccoli for fresh eating, it is sweet, tender, and produces well for the whole season.

Heirloom (min. 200 seeds) \$2.50

Heirloom Organic (min. 200 seeds) \$3.75

Heirloom Bulk (min. 1000 seeds) \$5.50

Waltham 29 Broccoli

85-92 days. An American variety, developed around 1950 in Massachusetts, Waltham produces a broccoli head that is tight and compact, very much like you'd expect. It performs best when planted in the summer for a fall harvest. I love growing it for freezing, harvesting a lot of uniform, beautiful heads in the fall.

Heirloom (min. 200 seeds) \$2.50

Heirloom Organic (min. 200 seeds) \$3.50

Heirloom Bulk (min. 1000 seeds) \$5.25

Zamboni Rapini Broccoli Raab

65-75 days. Grown for its florets, Zamboni is a warmer weather broccoli raab. It takes longer to mature, but is less likely to bolt and produces many side shoots, making it a great choice for summer production.

Heirloom (min. 200 seeds) \$2.75

Dwarf Bok Choy

Amy's Brussels Sprouts

Kathryn's Calabrese Broccoli

Brussels Sprouts

These 'little cabbages' are hated by many, but I think that is a lot with how they are prepared. Roasted or sauteed and browed, they are sweet and rich in flavor. They are one of the more difficult vegetables to grow, and require well fertilized soil and a long season to produce. They store well on the plant and can be harvested into late fall.

Catskill Brussels Sprouts

85-110 days. Introduced in 1941, Catskill produces good yields of large, dark green sprouts. It's a good choice for freezing as well as fresh eating.

Heirloom (min. 100 seeds) \$2.50

Evesham Special Brussels Sprouts

One of the earlier varieties, Evesham Special produces good yields of delicious sprouts. This is a smaller variety, with shorter plants that do well in exposed areas. A great traditional English brussels sprouts.

Heirloom (min. 100 seeds) \$2.75

Falstaff Brussels Sprouts

90 days. A beautiful purple brussels sprout, it stays purple even when cooked! It has a mild, slightly nutty flavor. Purple brussels sprouts are difficult to bring to harvest. Not for the novice gardener.

Heirloom (min. 100 seeds) \$2.75

Long Island Improved Brussels Sprouts

100 days. Long Island Improved is the standard green brussels sprout. Dating back to the 1890's, it is one of the most popular varieties.

Heirloom (min. 100 seeds) \$2.50

Cabbage

The lowly cabbage, a staple vegetable in many cultures, but frequently looked down on for being peasant food. It's tight heads can be enjoyed raw in a coleslaw, fermented into a sauerkraut, sauteed for a delicious side, or even roasted. It is a wonderful fall vegetable, tolerant to cold and frost, and it stores well into winter.

Annie's Cabbage Experiment

We found a lot of interesting heirloom cabbages at our Italian supplier and wanted to give them a try. We thought you might like to test them with us! We have 7 "new to us" varieties to try. You will receive 3 of them. Grow them, enjoy them and let us know what you think. The best will be featured in the 2020 catalog.

Heirloom (3 varieties)

\$6.00

Early Cabbage

All Seasons Cabbage

87 days. First introduced in 1886, this all purpose cabbage can be grown in the south as an early cabbage, producing a good sized head fairly quickly, and can be grown as a late variety in the north. It performs well during hot and dry summer months, producing large, round heads that are good for kraut as well as other preparations.

Heirloom Organic (min. 100 seeds)

\$3.50

Copenhagen Market Cabbage

60-70 days. A traditional round cabbage that is fairly quick to reach harvest. With its mid-sized, 2-3 lb. cabbages, it is a good choice for both fresh eating and sauerkraut.

Heirloom (min. 200 seeds)

\$2.50

Heirloom Bulk (min. 1000 seeds)

\$5.50

Cuor di Bue Grosso Cabbage

65-75 days. This is the sweetest raw cabbage I've tasted. Deliciously sweet, with small conical heads, this is the perfect cabbage for cole slaw or braised cabbage. This Italian variety is our favorite for fresh eating.

Heirloom (min. 200 seeds)

\$2.50

Golden Acres Cabbage

62 days. Originally introduced in the 1920's, Golden Acres is a small green cabbage that has tender, mild, and sweet leaves. A great choice for those who want a really early cabbage and those with limited space.

Heirloom (min. 200 seeds)

\$2.50

Heirloom Organic (min. 100 seeds)

\$3.75

Red Acres Cabbage

75 days. Delicious and sweet, these red cabbages are a beautiful addition to your garden. Petite and compact, weighing only 3 lbs., they are great for those with less space or who just want a single meal cabbage. They are also a good storage variety for an early cabbage.

Heirloom (min. 200 seeds)

\$2.50

Heirloom Organic (min. 200 seeds)

\$3.50

Testa di Ferro Cabbage

85 day. A mid-season savoy cabbage also known as Ironhead Savoy. This is a beautiful little cabbage, with a small head of green crinkly leaves. It is highly prized for its great flavor. It is my favorite for making cole slaw.

Heirloom (min. 200 seeds)

\$2.75

Cuor di Bue Grosso Cabbage

Testa di Ferro Cabbage

Mammoth Red Rock Cabbage

Chinese Cabbage

Aichi Chinese Cabbage

70 days. Commonly known as napa cabbage, chinese cabbage has a barrel shaped head with crinkly, savoyed leaves. Aichi is one of the few heirloom Chinese cabbages that we have found to reliably form a head.

Heirloom (min. 200 seeds)

\$2.50

Late Cabbage

Brunswick Cabbage

90 days. A German heirloom, green, drumhead cabbage, it is good both cooked and as a coleslaw. It is also an excellent choice for winter storage and for making sauerkraut. A really great all purpose cabbage.

Heirloom (min. 200 seeds)

\$2.50

Late Flat Dutch Cabbage

110 days. This Amish heirloom produces a very large flat head. It keeps very well and does best in cool weather. It is typically used for krauting and braising.

Heirloom (min. 200 seeds)

\$2.50

Filderkraut Cabbage

90 days. This is my favorite variety for making sauerkraut. The large, tall, pointy shaped head are easy to slice into beautiful shreds. The cabbage is so sweet and delicious that my children would reach up on the counter and steal it as I was packing it up into the crock.

Heirloom Organic (min. 100 seeds)

\$3.75

Mammoth Red Rock Cabbage

100 days. Dating back to 1889, this old reliable red cabbage is a garden favorite. With large, beautiful, deep purple heads, that are sweet and crisp, I love growing these beauties for beautiful braised cabbage as well as pink sauerkraut.

Heirloom (min. 200 seeds)

\$2.75

Dipel Dust

I always struggled with cabbage worms destroying my cabbage, broccoli, and cauliflower until someone suggested Bt (Bacillus Thuringiensis), a natural soil-borne bacteria that is toxic to the worms, but harmless to humans. Just sprinkle a little powder on your plants and watch the bugs disappear. You need to re-apply after rain or as needed.

Dipel Dust (1 lb.)

\$13.50

Mix of Carrots

Carrots

Whenever I ask new gardeners what they want to grow, carrots are high on the list. With a little care and attention, these garden favorites can produce from summer through fall, and can even be overwintered and enjoyed in the spring.

Annie's Rainbow Carrots Mix

Rainbow carrots is a fun mix of colors and flavors. Lunar White for mild sweetness, Scarlet Nantes for that traditional orange carrot, Lobbericher for the richness and yellow beauty, and Dragon for its wonderful purple color and spicy flavor.

Heirloom (min. 300 seeds) \$2.75
Heirloom Bulk (min. 1800 seeds) \$6.00

Amsterdam Forcing Carrot

50-70 days. As the name implies, this early carrot is commonly grown as a forcing carrot for baby carrots. When you allow it to grow to full size it has really long thin roots that don't taper. It has a great carrot flavor.

Heirloom (min. 300 seeds) \$2.75

Autumn King Carrot

68 days. Autumn King is a great choice for fall gardens. Originally grown for livestock feed, I say those are some lucky cows. It has a wonderful flavor, with hints of citrus orange, and is excellent as a fresh eating carrot.

Heirloom (min. 300 seeds) \$2.75

Danver's Half Long Carrot

70 days. A standard American crisp orange carrot with a strong carrot flavor, it maintains a lot of its flavor even when cooked. With shorter roots, growing only 5-6 inches long with a pointed tip, it is a good choice for denser soils.

Heirloom (min. 300 seeds) \$2.50
Heirloom Organic (min. 300 seeds) \$3.75

Dragon Carrot

85 days. What a beautiful carrot, deep purple on the outside and orange on the inside. It has a wonderful, spicy flavor that cooks up beautifully.

Heirloom Organic (min. 150 seeds) \$3.25

Kuroda Carrot

75 days. This Asian carrot is long, uniform, and sweet with a sharp carrot flavor. It tolerates heat better than most carrots, and we found that it is one of the few varieties that has a good carrot flavor when picked very small as a baby carrot.

Heirloom (min. 300 seeds) \$2.75

Kyoto Red Carrot

70-90 days. A traditional carrot from the Kyoto region of Japan. It is a really old carrot, with more wild characteristics. It has a strong, delicious, sweet, carrot flavor. The color is striking, with red and almost pink tones. You can pick them young, before they develop a hard center core, or leave them to grow HUGE carrots.

Heirloom (min. 300 seeds) \$3.00

Little Finger Carrot

60 days. This is our favorite carrot. It can be harvested young for baby carrots, or left to grow out for larger carrots. At full size, it is 1 inch wide and 5-6 inches long with a blunt tip. They are crisp, sweet, and make for excellent fresh eating carrots, but they also cook up wonderfully. An all-around excellent carrot.

Heirloom (min. 300 seeds) \$2.50
Heirloom Organic (min. 150 seeds) \$4.25
Heirloom Bulk (min. 2000 seeds) \$5.50

Oxheart Carrot

90 days. Originally from France and introduced to the US by Atlee Burpee in 1884, this very large carrot grows to over one pound! They have short, very wide roots and have a great carrot flavor with a good texture even when very large. They store well, and are a great choice for dense soil.

Heirloom (min. 300 seeds) \$2.75

Paris Market Carrot

52 days. A cute, fun, bite-sized carrot with one inch round roots. Kids love these fun little carrots. It is also a great choice if you have really dense soil that damages the root of longer carrots.

Heirloom (min. 300 seeds) \$2.50

Scarlet Nantes Carrot

68 days. One of the most famous carrots, Scarlet Nantes dates back to the 1850's and was developed by Vilmorin, one of the old French seed houses. It grows a long, tapered root that is orange throughout. It has a great carrot flavor, not too strong or mild with floral flavors when eaten raw.

Heirloom (min. 300 seeds) \$2.50
Heirloom Organic (min. 150 seeds) \$3.25
Heirloom Bulk (min. 2500 seeds) \$5.25

St. Valery Carrot

80-90 days. We grow lots of this old French carrot for soups and stews. It has a great, rich flavor, and big, fat 12 inch long carrots. Our favorite cooked carrot.

Heirloom (min. 300 seeds) \$2.50

Tendersweet Carrot

75 days. A very sweet orange carrot. It grows 7 inches long with a fine grained texture and orange color throughout, with a semi-blunt end.

Heirloom (min. 300 seeds) \$2.50
Heirloom Bulk (min. 2000 seeds) \$5.25

Kyoto Red Carrot

For frustration free carrots:

1. Choose the right variety for your soil
2. Sow carrot seeds on the surface
3. Water daily until they sprout

All Heirloom Varieties, No GMOs

Cauliflower

One of my favorite vegetables, cauliflower is delicious roasted, steamed or pickled. With all the beautiful colors that heirloom cauliflower come in, it's a really fun vegetable, however it is also one of the most difficult to grow. To form a nice head it requires excellent soil fertility and the right temperatures, so planting in the spring or fall and using lots of compost is a must.

Annie's Rainbow Cauliflower Blend

What a fun planting! White, pale yellow, green and purple, this blend will give your garden a punch of color. Lightly pickled, this blend will make for a truly beautiful and unique salad, or just serve raw with a dill dip and enjoy! This blend contains green, yellow, purple and white cauliflowers.

Heirloom (min. 100 seeds) \$2.75

All the Year Round Cauliflower

68 days. A great, easier to grow, white cauliflower with tightly packed heads that grow on small plants. It's a great choice for succession planting, and is one of the earliest cauliflowers.

Heirloom (min. 100 seeds) \$2.75

Snowball Cauliflower

52-70 days. An early cauliflower that also does well overwintering in warmer climates. It produces white, 7 inch heads with large outer leaves.

Heirloom Organic (min. 100 seeds) \$3.50

Violet of Sicily Cauliflower

68 days. A strikingly beautiful cauliflower. It is bright purple when raw and pale green when cooked. It has a more delicate texture than most cauliflower with looser florets, and the head has a flatter shape than most of the white cauliflowers. Not only is it mild and delicious, it is easier to grow.

Heirloom (min. 100 seeds) \$2.50

Annie's Rainbow Cauliflower Blend

Dorata d'Asti Celery

Golden Bantam Sweet Corn

Black Aztec Corn

Celery and Celeriac

We know celery by its crunchy stalk, but it is prized throughout Europe for its delicious leaves. Use the stalk raw, cooked, in salads or stews, or use the leaves as an herb, celery is versatile and a staple in our kitchen. Celeriac is a delicious celery flavored bulb.

Bianco Verona Veneto Celeriac

This Italian celeriac from Venice has tender, stringless, 3-4 inch roots with a slightly nutty celery flavor. Celeriac is difficult to grow and this is the easiest variety I've found.

Heirloom (min. 300 seeds) \$2.75

da Taglio Cutting Celery

100 days. Da Taglio or cutting celery is grown for its flavorful leaves. It has a great rich pepper flavor that is wonderful in soups, stews and salads.

Heirloom (min. 300 seeds) \$2.75

Dorata d'Asti Celery

105 days. Dorata or Golden from the Asti region of Italy is self-blanching, meaning you don't have to bury or cover the stems to produce tender stalks. It's my favorite, and is one of the easiest to grow. A great choice for beginners.

Heirloom (min. 300 seeds) \$3.00

Golden Self-Blanching Celery

85 days. Introduced in 1885, Golden Self-Blanching is a disease resistant early variety. It is thick and tasty, with fewer strings and less bitterness than other varieties.

Heirloom (min. 300 seeds) \$3.00

Utah Tall Celery

110 days. The standard green heirloom celery, Utah Tall is wonderfully versatile. This is the one you're going to want to grow for celery sticks, but it is great prepared lots of other ways too.

Heirloom (min. 300 seeds) \$2.75

Heirloom Organic (min. 200 seeds) \$3.75

Bianco Verona Veneto Celeriac

Oaxacan Green Dent Corn

Strawberry Popcorn

Corn

Fresh, roasted, popped or dried and ground into cornmeal, corn is versatile and delicious.

Heirloom sweet corn is packed with that great corn flavor and enough sweetness to balance it out. Popcorn is firm and flavorful, and heirloom field corns are full of flavor for making the best cornbread you've ever had!

Sweet Corn

Aunt Mary's Sweet Corn

68 days. This Ohio heirloom has become one of my favorite corns. This white corn is really early and produces some of the sweetest heirloom corn I've tasted. A real treat straight from the garden, I don't even cook it!

Heirloom (min. 50 seeds) \$4.00

Country Gentleman Sweet Corn

92 days. Country Gentleman is a white shoepeg corn, meaning that the kernels are not in straight rows like standard corns. Small, tender white kernels that are crisp when harvested at their peak. A good choice for fresh eating or freezing.

Heirloom (min. 100 seeds) \$3.50

Golden Bantam Sweet Corn

70-85 days. A nice, fast, heirloom yellow sweet corn, the one from which most of the original hybrid yellow sweet corns were developed. When picked at its peak, it has a sweet, rich corn flavor that rivals or beats any hybrid.

Heirloom (min. 100 seeds) \$3.75

Heirloom Organic (min. 50 seeds) \$4.50

Heirloom Bulk (min. 500 seeds) \$9.75

Heirloom 5 pounds \$65.00

Luther Hill Sweet Corn

82 days. Developed by Luther Hill in 1902, it is one of the predecessors of Silver Queen. A white sweet corn, and one of the sweetest heirloom sweet corns, it grows short ears on 4 ft. tall stalks. If you space it widely the central stalk will produce 2 ears, and side shoots will develop that produce ears as well, getting up to 4 ears from each plant.

Heirloom (min. 50 seeds) \$3.50

Stowell's Evergreen Sweet Corn

80-100 days. My favorite of the heirloom sweet corns. It is white, with big, tender kernels. It has a full, rich, corn flavor that is delicious even when picked late, after it's peak of sweetness. When it is picked at its peak it is as sweet and crisp as any hybrid.

Heirloom (min. 100 seeds) \$3.75

Heirloom Organic (min. 50 seeds) \$4.25

Heirloom Bulk (min. 500 seeds) \$9.75

A Perfect Corn Patch

Do you have blank spots in your corn planting? Untreated corn seeds are very sensitive to temperatures, so blank spots can happen if it isn't warm enough. Use Kamaile's method, start your corn indoors! Just sow in small cells 2-3 weeks before you want to plant outdoors. Gently transplant the 6-12 inch tall plants. It works every time.

Flour Corn

Black Aztec Corn

85 days. A beautiful black corn, many believe it to be the corn grown by the Aztecs over 2000 years ago. It makes for fantastic tasting corn flour and corn bread, though the grey color might seem a bit strange at first.

Heirloom (min. 50 seeds) \$3.50

Bloody Butcher Corn

105 days. Bloody Butcher is a beautiful multi-purpose corn. It has large ears with big, deep burgundy kernels. A great corn for flour, it makes for beautiful red tortillas or cornbread.

Heirloom (min. 50 seeds) \$3.50

Hopi Blue Corn

110 days. Originally grown by the Hopi Indians, Hopi Blue is our favorite field corn. Beautiful plants grow long, thin ears with lots of deep blue-purple kernels. Flour made from these kernels can be used to make exceptionally flavored blue corn tortillas.

Heirloom (min. 50 seeds) \$4.00

Oaxacan Green Dent Corn

75-100 days. Grown by the Zapotec Indians of southern Mexico for hundreds of years, it is traditionally made into green corn tortillas and tamales. A good choice for those with a short growing season, it is a drought resistant variety.

Heirloom Organic (min. 50 seeds) \$4.50

Otto File Flint Corn

This beautiful, golden colored corn was originally developed for making polenta. It originated in the United States centuries ago and was brought to Italy, where it was prized for its amazing flavor.

Heirloom (min. 50 seeds) \$4.00

Field Corn

Boone County White Corn

120 days. One of the highest yielding white field corns for the central and southern parts of the corn belt. It is also a good multi-purpose corn, good eaten fresh in the milk stage or left to be a dry corn. It was originally grown for making corn meal, and dates back to the time of the civil war.

Heirloom (min. 80 seeds) \$3.50

Heirloom Bulk (min. 500 seeds) \$9.50

Heirloom 5 pounds \$35.00

Heirloom 25 pounds \$120.00

Hickory King Corn

115 days. With its very large yellow kernels, Hickory King is a great roasting corn. It is also used for grits, cornmeal, tortillas and it is especially good for hominy, since the skins are easily removed by soaking.

Heirloom (min. 80 seeds) \$3.50

Heirloom Bulk (min. 350 seeds) \$9.50

Heirloom 5 pounds \$35.00

Heirloom 25 pounds \$120.00

Lancaster Sure Crop Corn

115 days. An excellent yellow field corn, Lancaster Sure Crop was developed in the early 1900's by Isaac Hershey. Most modern field corns are descendants of Lancaster Sure Crop. It has huge plants, 10-12 feet tall, with 10 inch long ears, and a strong root system. It is also a drought tolerant corn.

Heirloom (min. 80 seeds) \$3.50

Heirloom Bulk (min. 500 seeds) \$9.50

Heirloom 5 pounds \$35.00

Heirloom 25 pounds \$120.00

Reid's Yellow Dent Corn

85-110 days. Reid's Yellow Dent Corn is the most popular open-pollinated yellow corn in the US. It is one of the hardiest and most productive open pollinated corns ever developed. It is especially suited to the corn belt, but it is adaptable to almost every state.

Heirloom (min. 100 seeds) \$3.50

Heirloom Bulk (min. 500 seeds) \$10.00

Heirloom 5 pounds \$35.00

Heirloom 25 pounds \$120.00

Popcorn

Japanese White Hullless Popcorn

86 days. Japanese Hullless is the standard white popcorn. 4-5 foot plants grow lots of 4 inch ears, popping up into beautiful pure white popcorn.

Heirloom (min. 100 seeds) \$3.00

Pennsylvania Butter-Flavored Popcorn

102 days. This very old popcorn has been loved by the Pennsylvania Dutch for generations, and only recently was made available to the rest of the world. Larger than most popcorns, it tastes so good you won't even need any butter.

Heirloom Organic (min. 50 seeds) \$4.25

Strawberry Popcorn

102 days. This very old popcorn has been loved by the Pennsylvania Dutch for generations, and only recently was made available to the rest of the world. Larger than most popcorns, it tastes so good you won't even need any butter.

Heirloom Organic (min. 50 seeds) \$4.25

Tom Thumb Popcorn

85 days. Tom Thumb is a miniature corn, with stalks that only get 3 feet tall. The cobs grow 4 inches long, with golden kernels that pop into a light and fluffy popcorn.

Heirloom Organic (min. 50 seeds) \$4.25

Cucumbers

Crisp and juicy, cucumbers are one of the treats of summer. Delightful in a salad or saved for winter as pickles, cucumbers are popular and versatile. Most are green, but my favorites are the white ones that are a little milder and sweeter. Some varieties for slicing, others for pickling, some are 'burpless' which actually means they don't have spines, and even a variety for growing in a greenhouse, there's a cucumber for everyone.

Miniature White Cucumber

Basket of Cucumbers

Slicing/Fresh Eating Cucumbers

Armenian - Light Green Cucumber

55-70 days. With long, light green, ribbed but smooth fruit that turn yellow when ripe, it is a very mild cucumber with no bitter flavors. Armenian is closely related to the muskmelon, and is also known as the Snake Melon. It is excellent as a slicing cucumber or pickled.

Heirloom (min. 25 seeds) \$2.75

Ashley Cucumber

65 days. Ashley is a disease resistant cucumber that is tolerant of heat and humidity. Crisp and sweet, it is low in seeds when picked young. A great choice for the south.

Heirloom (min. 25 seeds) \$2.50

Boothby's Blonde Cucumber

60 days. Every time I give these away, people are skeptical of the white cucumbers and then they come back raving about the best cucumbers they have ever eaten! It is a slightly sweet cucumber that makes spectacular sweet pickles, but can also be used as a slicer. It's also a joy to grow. With perfectly straight, plump white cucumbers that are easily seen amongst the darker foliage, it's both pretty and delicious.

Heirloom Organic (min. 25 seeds) \$3.50

Lemon Cucumber

65 days. These little round yellow cucumbers are great for snacking. High yields of small, mild cucumbers that are less bitter than other varieties. Be sure to pick them small to have delicious, crisp cucumbers.

Heirloom (min. 25 seeds) \$2.50

Heirloom Organic (min. 25 seeds) \$3.50

Marketmore 76 Cucumber

70 days. Still one of the most commonly grown slicing cucumbers, it produces long, straight, almost seedless cucumbers that are juicy with an excellent cucumber flavor. A great choice for slicing in salads.

Heirloom (min. 25 seeds) \$2.50

Heirloom Organic (min. 25 seeds) \$3.75

Heirloom Bulk (min. 200 seeds) \$8.00

Mexican Sour Gherkin (Cucamelon) Cucumber

60-70 days. Not a true cucumber, this little melon has a great tart, slightly lemony cucumber flavor. Its delicate vines with petite leaves produce lots of little, 1 inch long, oblong 'cucumbers.' Our daughter's friend loves these little cuties and gobbled up everything I grew as fast as I could pick them. They are great in salads.

Heirloom (min. 25 seeds) \$3.25

Miniature White Cucumber

50-55 days. These small, mild, sweet, white cucumbers are great for fresh eating. Vines are only 3 feet long, making it a good choice for those with size constraints or for container gardening.

Heirloom Organic (min. 25 seeds) \$3.50

Muncher Cucumber

65 days. This burpless variety is mild flavored and perfect for fresh eating. With a compact growing habit, it produces good yields of 6-9 inch cucumbers. I didn't need to trellis them and they stayed fairly well contained, making this a good choice for those with space constraints.

Heirloom (min. 25 seeds) \$2.50

Heirloom Organic (min. 25 seeds) \$3.25

Straight Eight Cucumber

63 days. An old fashioned variety still popular in home gardens, Straight Eight is both early and prolific. It produces long, straight cucumbers that are excellent for slicing.

Heirloom (min. 25 seeds) \$2.50

Heirloom Organic (min. 25 seeds) \$3.75

Suyo Long Cucumber

60 days. A traditional long fruited variety from China, Suyo Long is sweet and slightly ribbed. It is a burpless variety, and goes well in salads. These cucumbers are so long that they need to be trellised in order to grow straight fruit.

Heirloom Organic (min. 25 seeds) \$3.50

Telegraph Improved Cucumber

60 days. A British, greenhouse variety cucumber with long, thin, spineless cucumbers. A great variety for growing indoors because they don't require insect pollination, but they do well outdoors as well. Indoors the plants can reach up to 8 feet tall, requiring good trellising to produce long, straight fruit.

Heirloom (min. 15 seeds) \$4.00

Mexican Sour Gherkin Cucumber

Pickling Cucumbers

Boston Pickling Cucumber

57 days. Introduced in 1883, Boston is one of the old standards and one of favorite green all-purpose cucumber. Grown and developed for the pickling trade, it is sweet and crisp, and quickly became a favorite slicing cucumber as well. It produces high yields of 6 inch cucumbers, perfect for pickling.

Heirloom (min. 25 seeds) \$2.50
Heirloom Bulk (min. 200 seeds) \$8.00

Bushy Cucumber

45-50 days. This pickling cucumber originated in Russia, where it's short vines, only reaching 5 feet, made it perfect for the small dacha gardens. It is also easy to grow and an excellent choice for those in cool climates or those with size constraints.

Heirloom Organic (min. 25 seeds) \$3.25

Boston Pickling Cucumber

Eggplant

Heirloom eggplants are sweet, creamy and delicious, unlike their grocery store counterparts. They are excellent roasted, grilled, curried or in eggplant parmesan.

Annie's Favorite Eggplants

Eggplants come in so many beautiful colors and shapes, why not grow a collection of these beautiful and delicious vegetables? Each collection includes a minimum of 10 seeds of the following varieties:

Antigua	Pintung Long
Casper	Prosperosa
Kamo	

Annie's Favorite Eggplants \$6.00

Antigua Eggplant

75 days. This is a beautiful eggplant, creamy white with light purple striping. It is also one of mildest eggplants with a very creamy texture. If the texture of eggplant is what you don't like, give Antigua a try.

Heirloom (min. 25 seeds) \$3.00

Chicago Pickling Cucumber

57 days. This old variety has a thin skin and black spines. It was developed in Chicago for the commercial pickle trade, and has been popular ever since to the home gardener. It produces high yields of straight, plump cucumbers.

Heirloom (min. 25 seeds) \$2.75

Homemade Pickles Cucumber

55 days. A wonderful pickling cucumber, Homemade Pickles has high yields of green cucumbers. They can be harvested small for baby pickles or left to grow to 5-6 inches for excellent dill pickles.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$3.75

National Pickling Cucumber

52 days. Originally developed for the National Pickling Association, this pickling cucumber is what the commercial growers asked for. Dependable yields over a long season and tailored for Northern growers.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$3.75
Heirloom Bulk (min. 200 seeds) \$8.00

Antigua Eggplant

Black Beauty Eggplant

90 days. The old Italian standard of eggplants. With its large, dark purple fruits on moderate sized plants, it is a great all-purpose eggplant.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$3.75

Casper Eggplant

70 days. A beautiful, tear drop, ivory white eggplant. Originally from France, it is very sweet, mild and delicious. This was one of the family favorites and was spectacular grilled.

Heirloom (min. 25 seeds) \$2.75

Paris Pickling Cucumber

61 days. Paris Pickling Cucumber is a French cornichon cucumber. It is very popular in markets in Paris, and produces large yields of small, crisp cucumbers. For the traditional cornichons, they must be picked young and frequently.

Heirloom (min. 25 seeds) \$2.75

Snow's Fancy Cucumber

50-60 day. Originally from the Snow Pickle Farm in Rockford, IL, it was once highly prized for making small pickles. It produces slender 5 inch long and 1 1/2 inch wide fruits.

Heirloom Organic (min. 25 seeds) \$3.75

Kamo Eggplant

Diamond Eggplant

65-95 days. A great eggplant, with longer, dark purple, teardrop shaped fruit. It has larger plants that are fairly prolific and does well in drought conditions. This eggplant is wonderful for roasting, with its thin cross section that cooks evenly and quickly.

Heirloom Organic (min. 25 seeds) \$4.25

Kamo Eggplant

65 days. Grown for hundreds of years, this beautiful and unique eggplant is prized for its excellent flavor. Kamo has small deep purple fruit, a little bigger than an egg.

Heirloom (min. 25 seeds) \$2.75

Pintung Long Eggplant

65-75 days. With long, thin, dark lavender fruit, this heirloom from Taiwan is hardy, vigorous and fairly disease resistant. It has good yields, beautiful fruit, and a delicious, sweet flavor.

Heirloom Organic (min. 25 seeds) \$3.50

Prosperosa Eggplant

70-78 days. Prosperosa is a wonderful eggplant, producing baseball to softball sized purple fruits with white shoulders. The leaves are velvety dark green, with deep purple veins. They were petite plants for me in the North, but are reported to be much larger for others. They are very prolific and do well even in cooler climates.

Heirloom (min. 25 seeds) \$2.75

Eggplant need it to be warm to sprout. They like it from 80-90 F best, so use a heat mat.

Kilarney Raspberry

Fruit - Berries

Fresh berries, picked straight from the garden, are packed with sweetness and flavor that is hard to imagine. Start your heirloom perennial strawberry, raspberry and blueberry patches today to enjoy for years to come! **All plants ship in April and May. Free shipping to most states.** Sorry, we can't ship to HI, CA, OR, WA, AK or Canada.

Honeoye Strawberry

With it's big, beautiful, sweet and flavorful berries, it's usually a race to see who can eat the ripe berries first! Good yields, vigorous plants, big berries, you'll love this one! Expect to wait a year before your first harvest.

25 plants	\$23.00
50 plants	\$33.00
100 plants	\$48.00

Blueray Blueberry

Blueray is a good producing, winter-hardy blueberry that thrives in the midwest and northeast. Expect lots of sweet, flavorful, dark blue berries on 4-6 foot plants. We recommend that you acidify the soil with peat moss when planting blueberries, unless you know your soil is acidic.

1 plant	\$25.00
5 plants	\$60.00

Kilarney Raspberry

Released in 1961, Killarney is a nice, very winter-hardy heirloom raspberry. Its mid-sized sturdy canes will produce bright red berries with good flavor and aroma. A great choice for northern growers.

5 plants	\$28.00
10 plants	\$38.00

Gourds

Usually we only think of gourds as decorative, but they are so much more than that. There are edible gourds as well as those used for containers and utensils.

Annie's Gourd Mix

Gourds are both useful and fun. This mix contains gourds that you can use to make birdhouses, pots, baskets, or as decorations. This mix contains Bushel, Dipper, Bottle, and Speckled Swan.

Heirloom (min. 20 seeds) \$3.25

Futo Spindle Bitter Melon

Futo Spindle Bitter Melon

60-70 days. With large, climbing vines and yellow flowers, this Japanese bitter melon produces dark green, heavily warted fruits. The leaves and shoots are also edible. Bitter melon is traditionally eaten in curries, soups or stir fries. If you soak the flesh in salt water, a lot of the bitter flavor is leached out, making for a much milder vegetable.

Heirloom (min. 10 seeds) \$3.50

Giant Bottle (Birdhouse) Gourd

110 days. These large, interesting gourds are grown for ornamental purposes as well as for birdhouses. It requires a long warm growing season, but I had a lot of luck with them in Michigan, having yields of around 15 gourds from 2 plants. Dry them, cut a hole and seed them for fun and interesting birdhouses.

Heirloom (min. 20 seeds) \$3.00

Luffa

80 days. These gourds have many purposes. The young fruit are good cooked and used in salads, the immature fruits are good stir fried, and the mature gourds can be dried for use as sponges.

Heirloom (min. 15 seeds) \$3.00

Grains

A staple throughout the world, grains have fed people throughout the year for centuries. Made into cereals and breads, grains are the foundation of most cuisines. Modern varieties, bred for improved yields, have sacrificed protein and flavor. It is even proposed that newer hybrids are the cause of gluten intolerance, and that older, heirloom varieties of wheat don't cause these problems. Grown on the home scale, we can enjoy the flavor and nutrition of heirloom grains.

Common Oats

Oats are a great staple grain, delicious and hardy cooked into a porridge or breakfast cereal. Oats can be grown as a feed grain for livestock or as a cover crop. An excellent choice for a late summer cover crop because oats are a winterkill grain. Just till in the dry grass in the spring.

Heirloom (min. 200 seeds) \$3.50

Red Fife Spring Wheat

Originally grown on the land of David Fife, this Canadian hard wheat is the father of most of the modern wheats. It is thought to have originated in Turkey, brought to the Ukraine and grown by the Mennonites there. It grows 3-5 feet depending on fertility. The seeds will be either red or white in color depending on growing conditions. It is a spring planted wheat in colder climates, but can be grown as either a spring or fall wheat in moderate climates.

Heirloom Organic (min. 500 seeds) \$3.75

Oats, Wheat, Buckwheat and Sorghum

Japanese Buckwheat

Although classified as a grain, buckwheat is not a true grass and is unrelated to wheat. A great choice for the gluten intolerant. Used in Japan for soba noodles, in Northern Europe for blinis or porridge, it is a versatile crop. It is also an excellent cover crop and is loved by bees, which makes for a very dark and distinctly flavored honey. Japanese Buckwheat is more mild than some other varieties.

Heirloom (min. 200 seeds) \$3.50

White Popping Sorghum

This is a really fun sorghum to grow. It produces lots of small, white seeds that pop like popcorn. They are small, and best eaten with a spoon, but are a great choice for those with allergies.

Heirloom (min. 100 seeds) \$3.00

Winter Rye

A really useful cover crop, this is the gardener's friend. Plant it in the fall as a cover crop, it smothers fall weeds and adds organic matter to the soil. A great choice for breaking up heavy soil, it sends out lots of deep roots that pull up nutrients to the surface while they break up hard clay and mucky soils.

Heirloom Organic (min. 500 seeds) \$3.00

Greens

Loving the cooler weather of spring and fall, greens provide us with some of the first tastes from the garden. With their unique flavors and textures, greens are great as a salad or sauteed.

Claytonia

40 days. Also known as miner's lettuce or winter purslane, it is the hardiest of the winter salad greens. Claytonia has heart-shaped leaves around a white-colored stem. It can tolerate moderate frost and can be grown all winter in mild regions or cold greenhouses. I like planting the seeds in the late fall for harvest the following spring.

Heirloom (min. 250 seeds) \$3.50

Dutch Corn Salad (Mache)

55 days. A great variety for winter production either under cover or outside. Sow between September and April for greens from December to May or sow in late fall for harvest the following spring. It has thick, broad leaves that form in upright bunches. It has a mild minty flavor.

Heirloom (min. 200 seeds) \$2.50

Red Garnet Amaranth

50 days. Amaranth is a very versatile green and grain. Red Garnet has beautiful deep red leaves. The shoots can be added to a salad, the greens cooked like a spinach, its flowers are beautiful, and the grains can be harvested and used similarly to rice and corn.

Heirloom (min. 200 seeds) \$2.50

Rocket Salat Arugula

37 days. A gourmet Italian arugula, this is an excellent choice for salads and fresh greens. It has a strong, rich, peppery taste when grown in hot conditions, and a much milder flavor when grown in cool conditions.

Heirloom (min. 300 seeds) \$2.50

Heirloom Organic (min. 150 seeds) \$3.75

Heirloom Bulk (min. 1500 seeds) \$6.00

Dutch Corn Salad

Red Garnet Amaranth

Collard Greens

Georgia Southern Collard Greens

78 days. Also known as Creole or Georgia Green Collards, it was first introduced in the late 1800s. It has a loose cluster of blue-green leaves with a cabbage-like flavor. It is tolerant to heat and poor soils and is a good choice for summer production.

Heirloom (min. 200 seeds) \$2.25

Morris Heading Collard Greens

85 days. An old southern favorite. It grows loose heads that are dark green and slow to bolt. The young leaves are the most tender and flavorful, so harvest often. Great for fall growing, because it becomes sweeter with frost.

Heirloom (min. 200 seeds) \$2.25

Mustard Greens

Florida Broadleaf Mustard Greens

45 days. Slower to bolt than other varieties, this very large leaved mustard green produces flavorful leaves that are good in salads or cooked.

Heirloom (min. 300 seeds) \$2.25

Giant Red Mustard Greens

45 days. With extra large, beautiful leaves and a moderate mustard flavor, this mustard green is a good cut and come again variety.

Heirloom (min. 300 seeds) \$2.25

Southern Giant Curled Mustard Greens

42 days. This is the traditional curled leaf variety of mustard green that is so popular in the South. The leaves are bright green with very curly edges and it has a strong mustard flavor.

Heirloom (min. 300 seeds) \$2.25

Heirloom Organic (min. 150 seeds) \$3.50

Herbs

Herbs are the spice of life. Grown not as a stand-alone vegetable but for their wonderful flavor, culinary herbs add interest to almost any dish. From basil pestos, dill pickles, and herbed potatoes, to cilantro salsas and sage stuffings, herbs add flavor to everything we love to eat. But herbs are more than just flavor, they are also traditionally used medicinally. Many of our favorite culinary herbs can also be used to enhance our health, aiding in digestion or helping us fight a cold. Moms through the centuries figured out how to prevent a tummy ache or make someone with the flu feel better through the right meal. A lot of these herbs also deter bad bugs, protecting our veggies.

Basil Garden

Culinary Herb Gardens

Culinary Herb Garden

The perfect addition to any garden. These 8 herbs add bright, fresh flavor to all your meals. And they do more than that, herbs are great companion plants, helping drive away all the bad bugs from your garden. I love planting a box of these outside my kitchen door and then I spread them throughout my garden as well. You can never have enough herbs!

Heirloom (8 varieties) \$16.50

Gourmet Culinary Herb Garden

Do you love herbs and the variety they add to your cooking? This gourmet garden has 18 different herbs to provide you with all the variety that any foodie would love to have.

Heirloom (18 varieties) \$43.25

Basil Garden

Basil comes in so many different colors and varieties. From the sweet traditional genovese to the distinctive cinnamon, this basil garden will provide you with amazing flavor. And all the basil is great at deterring bad bugs, so why not plant them all over your garden!

Heirloom (7 varieties) \$16.25

Cilantro

Basil, Cinnamon

68 days. With its spicy cinnamon overtones, this basil is truly unique. It can be used in teas or desserts. Originally grown as an ornamental, it is a very decorative plant, with dark red stalks and bright green leaves.

Heirloom (min. 200 seeds) \$2.50

Basil, Dark Opal

80 days. Purple basil has been around since the late 1800's, and is really a beautiful addition to your garden. It has deep purple leaves with lavender flowers. A great herb to add to flavored oils or vinegars, and a wonderful contrast in color and companion to tomatoes in a hanging basket. It has the flavor of a traditional genovese basil.

Heirloom (min. 200 seeds) \$2.75

Basil, Genovese

68 days. The standard Italian culinary basil, it is a great herb to grow to season tomato sauce and all your Italian dishes. Basil is also a great companion plant, deterring a lot of garden pests. I love planting it all over my gardens.

Heirloom (min. 200 seeds) \$2.50
 Heirloom Organic (min. 200 seeds) \$3.50
 Heirloom Bulk (min. 1000 seeds) \$5.25

Basil, Greek

70 days. Also known as Ball basil, Greek basil has tiny, hot, spicy leaves and grows into little balls, looking like tiny topiaries. It is cute, decorative and distinctive.

Heirloom (min. 200 seeds) \$2.75

Basil, Lemon

60 days. The lemon flavor of this basil makes it a wonderful complement to fish and salad dressing.

Heirloom (min. 200 seeds) \$2.50

Basil, Lime

60 days. A unique basil with a flavor reminiscent of limes. Great for fish and salads.

Heirloom (min. 200 seeds) \$2.50

Basil, Thai

60 days. This is an unusual basil with a light, spicy flavor. It is traditionally used in Asian dishes, but it can be used in any cuisine.

Heirloom (min. 200 seeds) \$2.50

Basil, Genovese

Chervil

60 days. Chervil is prized for its anise flavor, similar to tarragon, and it is frequently used in greens mixes. A traditional part of a French Mesclun lettuce salad, it can also be used to flavor dishes such as fish and chicken.

Heirloom (min. 200 seeds) \$2.50

Chives

75 days. A mild relative of the onion, both the leaves and purple flowers are edible. Chives add a nice flavor and visual appeal to almost any dish. It is a hardy perennial, and quite beautiful, so establish a plot in your yard by the kitchen to have a ready supply all season.

Heirloom (min. 200 seeds) \$2.50
 Heirloom Organic (min. 200 seeds) \$3.75

Cilantro (Coriander)

55 days. Used throughout Asia and South America, Cilantro is one of the world's favorite herbs. The leaves are called cilantro and the seed is called coriander. It is one of the most versatile herbs for the kitchen. The leaves are used to flavor Mexican salsas, Argentinian chimichurri, in curries, asian dishes and Mediterranean dishes, and the seeds are a base in curries, pickling mixes as well as in sausages.

Heirloom (min. 200 seeds) \$2.75
 Heirloom Organic (min. 200 seeds) \$3.50
 Heirloom Bulk (min. 1000 seeds) \$5.50

Cumin

115 days. A biennial, cumin is best grown in warm climates. The seeds are used in curries, chilies, and a lot of Southwest dishes. Traditionally it's used to aid digestion.

Heirloom (min. 200 seeds) \$2.50

Dill, Bouquet

60-70 days. Grown for its delicious leaves and its wonderful seeds, Bouquet dill is the most widely grown variety of dill.

Heirloom (min. 200 seeds) \$2.50
 Heirloom Organic (min. 200 seeds) \$3.75

Dill, Dukat

60-70 days. Dukat dill is one of the sweetest and strongest flavored dills. It remains in the leaf stage longer for a larger harvest. This is one of my favorite herbs.

Heirloom (min. 200 seeds) \$2.50
 Heirloom Bulk (min. 1000 seeds) \$5.50

Epazote

This Mexican herb is traditionally added to bean dishes to aid digestion. It adds a richer, fuller flavor to cooked bean dishes.

Heirloom (min. 250 seeds) \$3.00

Dill, Dukat

Fennel di Firenze

75 days. An excellent variety of fennel, it has some resistance to bolting, and produces a nicely flavored root. It also produces good tops and quality seeds. It is a perennial plant that grows in zones 5-10. Fennel is best planted in its own bed away from the rest of the garden since it inhibits the growth of most every other vegetable.

Heirloom (min. 200 seeds) \$2.50

Annie's Favorite Vegetable Variety

Fenugreek

In cultivation since the Bronze Age, Fenugreek is used as a spice, tea, vegetable, and dye. The seeds have a mild maple syrup aroma and flavor. The leaves are called methi and are a wonderful herb to flavor potatoes and chicken. It grows best in a well-drained soil, and needs little fertilizer.

Heirloom (min. 25 seeds) \$2.75

Garlic Chives

Often considered an Asian herb, garlic chives are also known as Chinese chives or Chinese leeks. With their beautiful edible white flowers, they have a mild garlic and onion flavor. A bit less cold hardy than standard chives, it is best to cover them in the fall to protect them if you live in zone 4 or colder.

Heirloom (min. 200 seeds) \$2.50

Korean Licorice Mint

A wonderful perennial mint, it has green, heart shaped leaves and purple flowers. It does not spread like other mints, but stays in small clumps. It has a licorice scent, and is a great addition to salads, cooking, and in teas.

Heirloom Organic (min. 200 seeds) \$3.50

Lovage

Perennial, hardy in zones 5-8. The leaves have a mild celery flavor that can be used in salads or in soups and stews. The seeds have a delicious aroma and can be used in a similar way to celery seeds. It is a vigorous and tall growing herb with beautiful yellow flowers.

Heirloom (min. 25 seeds) \$2.75

Fennel di Firenze

Marjoram, Sweet

85 days. A wonderful perennial cooking herb, similar in flavor to oregano but milder and sweeter. I find it aids digestion of cabbage and is a wonderful flavor compliment as well.

Heirloom (min. 300 seeds) \$2.75

Mustard, Yellow

Mustard seeds are used to make prepared mustard and mustard powder. Either ferment and grind with vinegar and salt to make your own homemade mustard, use the seeds whole, or grind into a powder to flavor your food.

Yellow (min. 200 seeds) \$2.50

Oregano

80 days. Oregano is a wonderful perennial herb traditionally used in Mediterranean and Italian cooking. It has dark green leaves with purple flowers.

Heirloom (min. 300 seeds) \$2.75

Heirloom Organic (min. 300 seeds) \$3.50

Garlic Chive Flowers

Parsley, Flat Leaf

75-85 days. Typically used as a garnish, fresh parsley is also flavorful and delicious. It is traditionally used in Mediterranean dishes and in Argentinian chimichuri, and is used as the primary green in some salads. With its large, flat leaves, this is the traditional Mediterranean variety.

Heirloom (min. 200 seeds) \$2.50

Heirloom Organic (min. 200 seeds) \$3.75

Heirloom Bulk (min. 1000 seeds) \$5.50

Parsley, Giant Italian

70 days. With huge beautiful, aromatic dark green leaves that have a great flavor, this variety is one of the best culinary parsleys. It is dependable and stands up well to frost. One of the prized varieties for fresh eating as well as drying.

Heirloom (min. 200 seeds) \$2.75

Parsley, Hamburg Rooted

90 days. Dating back to the 1600's, Hamburg Rooted Parsley is grown for its parsnip like root instead of its flavorful leaves. The leaves can be used like other parsleys, but its real value is in its 8-10 inch white root. The root can be used anywhere you use carrots and parsnips, and it's an excellent addition to chicken soups.

Heirloom (min. 200 seeds) \$2.50

Parsley, Triple Curled

74 days. This heirloom, curly leaved parsley is both beautiful and flavorful. It holds for a long time at harvesting stage, even in warm weather. Biennial in zones 6-9, but typically grown as an annual.

Heirloom (min. 200 seeds) \$2.50

Rosemary

85 days. Grown as an annual in cooler climates, or as a perennial in zones 8-10, rosemary has a great flavor. It is the perfect complement to so many foods. It is also a wonderful companion

plant, driving away many bad bugs. These plants grow 3 or more feet tall. Rosemary is difficult to grow from seed because of its very low germination rate.

Heirloom (min. 50 seeds) \$3.50

Sage

80 days. A traditional ingredient in breakfast sausage or Thanksgiving stuffing, fresh sage imparts sweetness and great flavor without the harshness of most dried sage. But be sure to cook it first, raw sage doesn't taste good. Sage is a beautiful perennial with purple flowers and greyish green leaves.

Heirloom (min. 50 seeds) \$2.75

Heirloom Organic (min. 50 seeds) \$3.75

Rosemary

Sorrel

80 days. Traditionally used in French cuisine, it has a wonderful lemony flavor that is excellent in salads or with fish. It is an excellent cut and come again green. A spring planting can be harvested all summer and fall. We found it overwinters well and can be harvested the following spring as well.

Heirloom (min. 200 seeds) \$2.50

Spearmint

80 days. Spearmint has a wonderful flavor that goes great in desserts, teas and salads, or as a companion to lamb and other meats. Mints can be invasive, so care should be taken to keep them contained.

Heirloom (min. 200 seeds) \$3.25

Stevia

This super sweet herb is a great choice for a natural sweetener. Just grow and dry the leaves and use the powdered leaves to sweeten almost anything. My daughter loves stevia sweetened tea, yogurt and even whipped cream!

Heirloom (min. 25 seeds) \$3.00

Summer Savory

60 days. The leaves are used either fresh or dried to flavor meat and egg dishes. It also is a great herb to grow as a companion plant to repel garden bugs.

Heirloom (min. 540 seeds) \$2.75

Tarragon, Russian

60 days. Russian tarragon is less flavorful than the hybrid French tarragon, but is a very prolific and hardy perennial. It has a mild anise flavor and is excellent with fish, chicken and salads.

Heirloom (min. 200 seeds) \$3.00

Thyme

90 days. Thyme is a very versatile herb. It can be used to flavor most meats as well as most vegetables. It is a perennial, and has beautiful purple flowers. It is frequently used as a landscaping plant, and is great to plant near your kitchen for beauty, flavor, and aroma.

Heirloom (min. 250 seeds) \$2.75

Heirloom Organic (min. 250 seeds) \$3.50

Tulsi (Holy Basil)

A very important part of Indian culture, Tulsi is grown for culinary, religious, and medicinal reasons. It is widely used in Ayurvedic medicine where it is known as the elixir of life and is supposed to promote longevity. It can be consumed as a tea, or eaten as a fresh or dried leaf.

Heirloom (min. 200 seeds) \$2.75

Thyme

Borage

Medicinal and Tea Herbs

Medicinal Herb Garden

Throughout the years medicinal herbs have become a large part of our family's life. Traditionally used to treat common ailments, herbs can play such an important part in maintaining our family's health. Not only helpful, we love the flavor of our herbal teas as well. With 14 different herbs you can always find something to give you and your family a pick-me-up.

Heirloom (14 varieties) \$34.75

Samantha's Ayurvedic Garden

Sam loves her Ayurvedic herbs. This garden has all the easier to grow herbs that she uses to keep herself healthy.

Heirloom (8 varieties) \$19.00

Herbal Tea Garden

Sometimes you just want a nice cup of tea. This garden is my favorite 7 herbs from the Medicinal Herb Garden for making delicious herbal teas.

Heirloom (7 varieties) \$17.25

Anise

120 days. This annual has been cultivated for thousands of years. It is both culinary and medicinal, with its licorice flavor that traditionally has been used to calm upset stomachs and aid in digestion. It requires a long hot summer to bring the seeds to maturity. It is also a companion plant as a protection against aphids.

Heirloom (min. 250 seeds) \$2.50

Anise Hyssop

This wonderful perennial is both beautiful and delicious. A member of the mint family, it has beautiful purplish blue flowers and a pleasant licorice flavor that is wonderful in teas. It is traditionally used to aid colds and sore throats. It can be invasive.

Heirloom (min. 90 seeds) \$2.50

Bee Balm

Also known as Monarda or Bergamot, Bee Balm is a wonderful and aromatic flower that attracts bees, butterflies and birds. It has been traditionally used as a topical antiseptic or mouthwash. It is frequently used in teas and tastes slightly bitter with a mixture of the flavor of spearmint, peppermint and oregano.

Heirloom (min. 50 seeds) \$2.75

Spearmint

Borage

Borage has beautiful blue flowers that are edible, tasting similar to a cucumber, and are excellent in a salad. The leaves can be eaten as a vegetable in soups or as a green sauce traditionally made in Germany. It is also an excellent companion plant for squash, because squash bugs won't cross it. I alternate zucchini with borage and spread in marigolds to organically control squash bugs. It is also said to repel tomato hornworms.

Heirloom (min. 50 seeds) \$2.50

Calendula

Calendula is a wonderful multi-purpose flower. Dry the flowers for teas and skin balms, use the plants as a companion plant to deter bad bugs, and enjoy the beautiful color all summer. (min. 50 seeds)

Orange King Calendula \$3.50

Orange flowers growing about 24 in. tall.

Pacific Beauty Mix Calendula \$2.75

Pacific Beauty Mix Calendula – Organic \$3.75

Enjoy a variety of shades of oranges and yellows with this beautiful calendula mix.

Chamomile, Roman

Also known as lawn chamomile, Roman chamomile grows low to the ground and for some is considered a weed. It has beautiful white flowers which can be used in teas.

Heirloom (min. 200 seeds) \$2.75

Comfrey

Perennial, hardy in zones 3-8, common comfrey has been used for centuries. It has purple, rose or white flowers. The leaves are traditionally used as a topical to treat wounds and reduce pain in cuts and scratches. I have used the dried leaves as a bath tea to soothe skin wounds. Comfrey is also a great plant to use as a fertilizer. It has a deep tap root and pulls lots of nutrients from deep in the soil and the leaves can be composted to add those nutrients to the surface. Comfrey is difficult to germinate.

Heirloom (min. 10 seeds) \$2.75

Echinacea

Also known as Purple Coneflower, this beautiful perennial blooms in late summer and early fall. It is traditionally used in teas to treat cold symptoms.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 25 seeds) \$3.75

Hops

Traditionally used to flavor and preserve beer, hops provides the bitterness and aroma that gives beer its unique flavor profile. A lot of modern varieties have been developed for the beer industry, and if you are after a specific flavor profile, those might be a better choice. But traditional hops can also be used for its wonderful scent and its calming properties. It can be used to stuff pillows to aid in insomnia. It grows very tall, 20 or more feet and requires trellising. Hops planted from seed produces both male and female plants.

Heirloom (min. 100 seeds) \$2.75

Catnip

80-90 days. In the mint family, catnip is excellent grown for a tea, but is also loved by cats and honeybees. It is a larger plant, growing up to 4 feet tall. It can be used as a companion plant and is thought to repel many harmful insects including flea beetles and squash bugs. Like all mints, it can become invasive. We had some growing in the hayfield hundreds of feet away from the original planting.

Heirloom (min. 300 seeds) \$2.75

Chamomile, German

German chamomile is traditionally used in teas to aid in sleep. An infusion of the flowers can also be used to help with dampening off in seed starts. A beautiful white flower, it is also a great addition to any garden as a companion plant to attract hoverflies and wasps.

Heirloom (min. 150 seeds) \$2.50

Heirloom Organic (min. 150 seeds) \$3.75

Lavender, Vera

Grown for its beautifully scented flowers, lavender is a very versatile plant. Its flowers are excellent dried for potpourri, and traditionally added to teas to calm and soothe. The flowers are also a component of Herbs de Provence and our daughter, Anne, loves lavender flowers with potatoes.

Heirloom (min. 100 seeds) \$2.75

Lemon Balm

A member of the mint family, lemon balm has a pleasant lemony scent and flavor. It is excellent in teas, and is traditionally used as a mosquito repellent. It is a smaller plant, growing more as a groundcover. Less so than catnip, it still can become invasive.

Heirloom (min. 200 seeds) \$2.75

Lemon Mint

A member of the mint family, lemon mint (*monarda citriodora*) has beautiful light purple flowers with a lemony scent when the leaves are crushed. It is frequently made into teas, but can be used in

savory cooking applications as well.

Heirloom (min. 25 seeds) \$2.75

Marshmallow

Perennial, hardy in zones 3-9. Dating back to the times of the ancient Greeks and Egyptians, the root has traditionally been used to soothe irritated skin of the throat, eyes, and lungs. It has hollyhock like leaves and beautiful tiny purple pompom flowers.

Heirloom (min. 100 seeds) \$2.75

Milk Thistle

Perennial, hardy in zones 2-8. Milk Thistle is a member of the Aster family, with beautiful light purple flowers. The young shoots can be eaten like asparagus, and the down from the seeds can be used to stuff pillows. The leaves and seeds are traditionally used in herbal medicine to detoxify the liver, treat asthma, and to treat a painful cough.

Heirloom (min. 50 seeds) \$3.00

Mullein

Biennial in zones 4-9. Traditionally used to treat coughs, mullein has striking yellow flower stalks that grow from a base of wooly gray-green leaves. Our family's cough remedy is a tea made from a mix of mullein, stinging nettle, spearmint and lemon balm. We find it works remarkably well and is delicious, so no one minds taking their medicine.

Heirloom (min. 200 seeds) \$2.75

Pennyroyal

Perennial, hardy in zones 6-9. I like pennyroyal for its insect repelling properties. It has a strong, minty smell that mosquitos don't like. My children use it along with lavender essential oil to make a safe alternative to modern insect repellants.

Heirloom (min. 200 seeds) \$2.75

Echinacea, lavender, thyme and other perennial herbs... don't pull them out at the end of the season. They'll come back stronger next year.

Plantain

Perennial in zones 4-9, this common lawn weed is traditionally used to soothe cuts, wounds, and stings as well as treat problems such as asthma and bronchitis.

Heirloom (min. 200 seeds) \$2.75

Stinging Nettle

Perennial in zones 3-10, stinging nettle is frequently found growing wild in forest edges. The young shoots can be cooked and eaten, and the dried leaves are very nutritious. I use nettle in teas for soothing cold symptoms. Care must be taken in harvesting because the leaves sting the skin and cause itching.

Heirloom (min. 200 seeds) \$2.75

St. John's Wort

This beautiful perennial shrub has been traditionally used as an antidepressant. It has bright yellow flowers over green foliage. Hardy to zone 3.

Heirloom (min. 50 seeds) \$2.75

Kale

Kale is a member of the cabbage family. It was developed for its tasty leaves. The baby greens are great in a salad, the mature leaves are excellent in a soup or sauteed. Our favorite way to eat them is roasted and turned into kale chips. Kale produces throughout the season, making it a great choice for those with limited garden space.

Annie's Kale Mix

I love all the different kales. From frilly to flat and in shades of purple and green, I find it hard to choose. This mix contains a nice variety of kales. Why not make a salad of a mix of baby kale? This mix contains Dwarf Blue Curled Scotch, Lacinato, Red Russian, Scarlet and Siberian.

Heirloom (min. 100 seeds) \$2.75

Delaway Kale

Grown in Ireland since the 1930's, this kale is both beautiful and delicious. Purple veined and tinged slightly curled leaves are tender, sweet and delicious.

Heirloom Organic (min. 100 seeds) \$4.00

Dwarf Blue Curled Scotch Kale

55 days. This is an early, hardy, and easy to grow kale with beautiful, curled blue-green leaves. It has a nice flavor and gets sweeter after a frost.

Heirloom (min. 100 seeds) \$2.50

Heirloom Organic (min. 100 seeds) \$4.00

Heirloom Bulk (min. 1000 seeds) \$5.50

Lacinato Kale

62 days. Lacinato kale is also known as dinosaur or black Tuscan kale. It has highly savoyed, dark blue-green leaves. The tenderness and mildness of its leaves makes it our favorite.

Heirloom (min. 100 seeds) \$2.50

Heirloom Organic (min. 100 seeds) \$4.50

Heirloom Bulk (min. 1000 seeds) \$7.75

Tobacco, Aztec (Wild)

Grown by the Native Americans for smoking and ceremonies, wild tobacco contains more nicotine than modern cultivars. Tobacco is a source of nicotine sulfate, a natural insecticide for controlling aphids, thripes, white flies and mites. Just dry and powder the leaves and sprinkle around the garden, or make into a tea for a spray application.

Heirloom (min. 200 seeds) \$3.00

Valerian

A hardy perennial that blooms in mid-summer with sweetly scented flowers, its flower extracts were used as perfume in the 16th century. It is native to Europe and parts of Asia. The root is prepared to make the herbal supplement that is used as a sedative. 60 inches tall. Hardy to zone 4.

Heirloom (min. 50 seeds) \$2.50

Spearmint

Red Russian Kale

60 days. With purple tinged leaves, red veins and a feathery shape, Red Russian is a beautiful kale. It is a bit softer than the blue varieties, so it doesn't need as much cooking to become tender.

Heirloom (min. 100 seeds) \$2.50

Heirloom Organic (min. 100 seeds) \$3.75

Scarlet Kale

30-80 days. With very curly, purple leaves, this kale is definitely a stunner. Similar to Dwarf Blue in texture, but a beautiful purple color, it is an excellent addition to the fall garden. Grow for baby kale or let it grow and harvest beautiful leaves throughout the season.

Heirloom (min. 100 seeds) \$2.75

Siberian Kale

65 days. One of the most cold hardy of the kales, this dwarf kale with large green leaves is an excellent choice for northern growers.

Heirloom (min. 100 seeds) \$2.50

Wormwood

Before the use of hops, wormwood was used as the bittering agent in beers. Its leaves have been used in absinthe, vermouth and other liqueurs for its bittering qualities. It's traditionally used to treat digestive ailments and intestinal worms. It does best in a shady location.

Heirloom (min. 200 seeds) \$2.75

Yarrow

A flowering aster, yarrow is beautiful and an excellent companion plant for attracting predatory wasps, lady bugs and hoverflies. Traditionally the plant has been used as a topical for wounds and cuts. It has also been used as a food, and the younger leaves can be cooked as a spinach or in a soup. Can be invasive.

Heirloom (min. 200 seeds) \$2.75

Purple Vienna Kohlrabi

Kohlrabi

Kohlrabi is a member of the cabbage family. It produces a delicious bulb that forms above the soil. It can be eaten raw in a salad, roasted, or even mashed.

Purple Vienna Kohlrabi

60 days. An heirloom dating back to the 1860's, Purple Vienna has purple skin and a crisp white flesh.

Heirloom (min. 100 seeds) \$2.50

White Vienna Kohlrabi

50 days. A very old cultivar, White Vienna has green skin and creamy white flesh.

Heirloom (min. 100 seeds) \$2.50

Heirloom Organic (min. 100 seeds) \$3.75

Heirloom Bulk (min. 1000 seeds) \$4.75

Leeks

Leeks are like giant green onions. They have a mild onion flavor that is prized for leek and potato soup. But I've found them to be so much more than that. Picked young, they are delicious braised or sauteed. Our favorite is to roast them with carrots in the oven.

American Flag Leek

130 days. Also known as Giant Musselburgh, it is the traditional variety of leek grown by backyard gardeners. It overwinters well and can be harvested in March in milder climates.

Heirloom (min. 250 seeds) \$2.75
Heirloom Organic (min. 150 seeds) \$3.75

Carentan Leek

110 days. An old European favorite dating back to the 1800's, Carentan Leek has large stalks and delicious flavor. It is a cold hardy variety and is good for fall and winter production.

Heirloom (min. 250 seeds) \$3.00

Giant Winter Leek

120 days. Known for its excellent flavor, Giant Winter is adapted to over-wintering and maturing in the spring. They can be grown closer together for more tender leeks. Sow in summer to late fall.

Heirloom (min. 250 seeds) \$3.00

American Flag Leek

Romaine Lettuce Blend

Lettuce

One of the first vegetables of spring, lettuce is a welcome sight after months of roots and stews. A fresh spring salad is one of the early joys of the garden. From the delicate and frilly loose leaf lettuces to the crisp and delicate butterheads to the more firm and crisp romaines, all in shades of greens and reds, there's a lettuce for everyone. Lettuce tends to bolt and become bitter in the heat of summer, but it thrives in the cool temperatures of fall.

Lettuce Blends

Annie's Lettuce Blend

Our favorite mix of lettuces, reds and greens, romaines and leafs, frilly and flat leafed. If you want a beautiful and interesting salad mix, this is the blend for you.

Heirloom (min. 250 seeds) \$3.00
Heirloom Bulk (min. 1800 seeds) \$8.75

Baby Lettuce Blend

Everyone loves a salad of baby greens, each leaf beautiful, delicate, and tender. This is a blend of lettuces that do particularly well harvested young.

Heirloom (min. 250 seeds) \$3.00

Cut and Come Again Lettuce Blend

Harvest this blend of leaf lettuce just above the ground and let it grow back for a second and third harvest. Or go out and harvest just enough of the larger leaves for dinner. Either way, this blend of leaf lettuces is a great way to extend your lettuce harvests for many weeks.

Heirloom (min. 250 seeds) \$3.00
Heirloom Bulk (min. 1800 seeds) \$8.75

Mesclun Lettuce Mix

This traditional French Mesclun salad is a mix of five lettuces, endive, arugula and chervil. It makes for a wonderful mix of sweet, peppery, bitter and flavorful greens.

Heirloom (min. 250 seeds) \$3.00

Microgreens Mix

Many people like to sprout vegetable seeds and eat the plants when they are very small, only an inch or so tall. These are called microgreen salads, and you'd be surprised at the huge variety of interesting flavors available. We tested six different microgreen mixes, and this one is easily our favorite.

Heirloom (min. 500 seeds) \$3.75

Misticanza Salad Mix

Misticanza is the Italian version of the French Mesclun mix. The most traditional versions contain at least twenty-four different Italian greens, many of them wild and hand harvested. We have chosen a large mix of Italian greens, beautiful lettuces, and herbs to make our own version of this wonderful Italian salad.

Heirloom (min. 250 seeds) \$3.00

Cut and Come Again Lettuce Blend

Organic Lettuce Blend

If you prefer all organic lettuces, this is the blend for you. A delicious mix of romaine, leaf and butterhead lettuces.

Heirloom Organic (min. 250 seeds) \$4.00

Romaine Lettuce Blend

Prized for their crisp, firm head, romaine lettuces are a favorite. This is a blend of all of our favorite romaine lettuces.

Heirloom (min. 250 seeds) \$3.00

Spring Mix Lettuce Blend

Kamaile's favorite mix, spring mix contains all the wonderful baby greens that thrive in spring. This is a delightful mix of beets and chard, lettuce and mustards, as well as other spring greens.

Heirloom (min. 250 seeds) \$3.00

All Year Round Lettuce

Butterhead Lettuce

All Year Round Lettuce

72 days. My favorite lettuce, this pre 1870 British heirloom is a beautiful traditional butterhead lettuce. It has tender, delicious green leaves that are loosely formed into a head. A really special lettuce.

Heirloom (min. 250 seeds) \$2.75

Buttercrunch Lettuce

65 days. A wonderful butterhead lettuce that is tender, yet firm. It has medium to light green leaves with a soft, creamy, buttery texture and little to no bitterness.

Heirloom (min. 250 seeds) \$2.50
Heirloom Organic (min. 250 seeds) \$3.50
Heirloom Bulk (min. 1800 seeds) \$7.75

Drunken Woman Frizzy Headed Lettuce

55 days. Who knows where the name came from, but this is a delightful lettuce. Light green with red edges, it has crinkly leaves that form a loose butterhead.

Heirloom (min. 250 seeds) \$4.25

Tom Thumb Lettuce

34 days. What fun little lettuces! These miniature butterhead lettuces with crinkly green leaves are delicious with mild, sweet and crisp yet tender leaves. It is also a good choice for a summer lettuce because they resist bolting better than many of the larger varieties.

Heirloom (min. 250 seeds) \$2.75

Winter Density Lettuce

65 days. Winter Density is best described as a tall butterhead, with some characteristics of a romaine. It is crisp, sweet and delicious. Winter Density is a good choice for overwintering in the garden. It has dark green leaves and a densely packed head.

Heirloom (min. 250 seeds) \$3.00

Leaf Lettuce

Black Seeded Simpson Lettuce

45 days. One of the most popular lettuces, it has beautiful, frilly loose leaves. Quick and easy, tender and delicious, it has a nice light yellow-green color.

Heirloom (min. 250 seeds) \$2.50
Heirloom Organic (min. 250 seeds) \$3.75

Italianisher Oak Leaf Lettuce

55 days. An excellent heirloom oak leaf lettuce, Italianisher grows large rosettes of delicious, green leaves with excellent taste and texture, mild flavor and little to no bitterness.

Heirloom Organic (min. 250 seeds) \$3.75

Lollo Rossa Lettuce

53 days. A frilly, deep red lettuce, it is a little more bitter than most lettuces, adding a nice contrast in flavor and color in a lettuce blend. It is very beautiful with dark red frilly leaves.

Heirloom (min. 250 seeds) \$2.75

Prizehead Lettuce

45 days. Dating back to the late 1800's, Prizehead is not a head lettuce, but a green leaf lettuce with lime green inner leaves and outer leaves tinged with purple to bronze. It has crinkly leaves that are tender and sweet.

Heirloom (min. 250 seeds) \$2.50

Red Salad Bowl Lettuce

44 days. This is a beautiful lettuce. Deep red, with frilly leaves and a mild flavor. It is slow to bolt, making it a great choice for growing in the heat or in warmer climates.

Heirloom (min. 250 seeds) \$2.50
Heirloom Organic (min. 250 seeds) \$3.75

Salad Bowl Lettuce

44 days. With medium green, frilly leaf lettuce, Salad Bowl is tender, crisp, and has a great flavor. It makes a wonderful salad on its own, but also is a great base in any lettuce mix.

Heirloom (min. 250 seeds) \$2.50
Heirloom Organic (min. 250 seeds) \$3.75

Tango Lettuce

52 days. This is the frilliest lettuce available. Both mild and sweet, it is a wonderful addition to a blend, but also fun on its own. It is fast to bolt, so it does best in cooler climates.

Heirloom (min. 250 seeds) \$2.75
Heirloom Organic (min. 250 seeds) \$3.75

Drunken Woman Frizzy Headed Lettuce

Cimmaron Lettuce

Tango Lettuce

Romaine Lettuce

Cimmaron Lettuce

60 days. Cimmaron is a very striking lettuce. A little deep green with lots of maroon veins and edges, this romaine type lettuce is also very delicious. It has the firm texture of romaine lettuces but is still very tender with a pleasant, mild flavor.

Heirloom (min. 250 seeds) \$2.75

Little Gem Lettuce

70 days. In England this is known as a gourmet lettuce, highly prized for holidays and special occasions. It produces tiny, personal sized, romaine shaped heads with a firm but tender texture and mild flavor.

Heirloom Organic (min. 250 seeds) \$3.75

Marvel of Four Seasons Lettuce

48 days. This French heirloom is known for its wide range of colors, varying from green to deeply tinged red depending on the weather and temperatures. It has a nice, loose head with a delicate, tender texture and fine flavor.

Heirloom (min. 250 seeds) \$2.75
Heirloom Organic (min. 250 seeds) \$3.75

Paris Island Cos Lettuce

72 days. The traditional variety of green romaine lettuce, it has a firm, crisp texture and the great flavor we associate with romaine.

Heirloom (min. 250 seeds) \$2.50
Heirloom Organic (min. 250 seeds) \$3.75

Head Lettuce

Ice Queen Lettuce

80 days. This heirloom iceberg lettuce is known for its great taste and texture. Far better than any grocery store variety, Ice Queen is considered the best tasting iceberg lettuce available. It is also more heat tolerant than many of the lettuces.

Heirloom (min. 250 seeds) \$3.00

Webb's Wonderful Lettuce

65-70 days. An English lettuce, it is a good summer variety because it withstands the heat well. It is bright green and has large heads with crisp leaves. A good choice for Southern growers.

Heirloom Organic (min. 250 seeds) \$4.75

Melons

Juicy and sweet, these delicious fruits are a special treat of summer. Homegrown and heirloom, they are amazingly flavorful. With a variety of colors and sizes, there is a perfect melon for any climate and palate.

Banana Melon

80-100 days. A long, thin melon with smooth blue skin that ripens yellow with salmon-pink flesh. It is incredibly sweet with a tropical fruit scent. Some say it gets its name from the shape and others say it's from the flavor.

Heirloom (min. 25 seeds) \$2.75

Charentais Melon

74 days. A true European cantaloupe, Charentais is a small, single serving melon with an exceptional sweet flavor. It takes care to achieve the remarkable flavor it is known for. This is a labor of love for those in France who prize this melon.

Heirloom (min. 25 seeds) \$2.75

Editso 47 Melon

88 days. This netted rind muskmelon is well adapted to hot and humid areas, making it an excellent melon for the South. It has large, sweet melons with firm, tender, salmon colored flesh.

Heirloom (min. 25 seeds) \$2.75

Hale's Best Jumbo Melon

85 days. A great old standard muskmelon, with orange flesh and a netted rind, Hale's Best Jumbo is a good melon for those who want a larger muskmelon.

Heirloom (min. 25 seeds) \$2.75

Banana melon

Honeydew, Green Flesh Melon

Hearts of Gold Melon

90 days. Developed in the late 1800's in Michigan, this muskmelon was once the most popular variety of melon for market growers. It has a deep orange flesh and a delicious flavor.

Heirloom (min. 25 seeds) \$2.75
Heirloom Organic (min. 25 seeds) \$3.50

Honey Rock Melon

75-90 days. Developed at Michigan State University and an All American Selection in 1933, this very large muskmelon with sweet orange flesh was developed for markets in the Northeastern US and Canada. A great choice for cooler climates.

Heirloom (min. 25 seeds) \$2.75

Honeydew, Green Flesh Melon

115 days. A smooth skinned melon with a thick rind that turns from pale green to ivory when it's ripe, it is a very sweet green-fleshed melon with a small seed cavity. Best grown in the south, but can be grown in the north with extra care.

Heirloom (min. 25 seeds) \$2.75
Heirloom Organic (min. 25 seeds) \$3.50

Minnesota Midget Melon

70 days. What cute little muskmelons, each one a perfect individual serving. Minnesota Midget produces lots of small, 5-6 inch, round melons with really sweet, orange flesh.

Heirloom (min. 25 seeds) \$2.75
Heirloom Organic (min. 25 seeds) \$4.50

Editso 47 Melon

Mushrooms

A gourmet treat, mushrooms have a richness and umami that can't be matched with any other vegetable. We offer a selection of outdoor mushroom kits that range from easy to challenging to grow. Shipping included.

Black Morel Mushroom Outdoor Kit

Morel mushrooms are a delicacy so prized that legions of people head into the woods every spring to harvest them. With this kit, you can have a patch of your own right in your backyard. One kit will inoculate 50 sq. ft. Can be started any time the soil is workable. Not for beginners.

Morel Mushroom Kit \$54.00

Shiitake Mushroom Plugs

Shiitakes are wonderfully flavored Japanese mushrooms with a rich and meaty flavor when cooked. Each kit comes with 100 inoculated spawn plugs to be inserted into holes drilled in a log that you keep outdoors. Shiitakes can be started from spring up to a month before a hard frost. Intermediate difficulty.

Shiitake Mushroom Plugs \$21.00

Shiitake Mushroom Log

Don't want to find a log, or maybe you can't find the right log, then get these pre-inoculated logs. 2 12 inch logs will be shipped to you. Just follow the instructions and enjoy delicious Shiitake mushrooms! Easy to grow.

Shiitake Mushroom Log \$40.00

Wine Cap Mushroom Outdoor Kit

With a mild, nutty flavor similar in taste and texture to a portabello, this mushroom is a welcome addition to your garden. It is easy to grow on a bed of woodchips or straw. It is one of the only perennial mushrooms that can produce the same season when planted in early spring to early summer. It is also called King of the Garden because it is an excellent garden companion plant. Wine Caps can be started anytime in the spring up to a month before a hard frost.

Wine Cap Mushroom Kit \$39.00

Clemson Spineless Okra

Okra

Originating from Africa, okra was originally used as a vegetable and thickener in gumbos and stews. It is now a southern favorite either fried or pickled. It is also excellent grilled or curried.

Burgundy Okra

55-60 days. A beautiful deep burgundy okra that turns dark green when cooked. It is very flavorful and cooks up with a nice, firm texture.

Heirloom (min. 75 seeds) \$2.75

Cajun Jewel Okra

65 days. Originally developed in the Bayou, this dwarf okra (only gets 2 1/2 feet tall) also adapts well to cooler climates. A great choice when you have limited space or don't want to harvest from a really tall plant, Cajun Jewel is also delicious.

Heirloom (min. 75 seeds) \$2.75

Clemson Spineless Okra

55 days. With its high yields and excellent flavor, Clemson Spineless is the old-time favorite okra and for good reason.

Heirloom (min. 75 seeds) \$2.75

Heirloom Organic (min. 75 seeds) \$4.25

Heirloom Bulk (min. 300 seeds) \$6.25

Perkins Long Pod Okra

60 days. This high yielding old favorite produces really long okra pods that remain tender even when large. It is a great choice for canning, and in gumbos and stews. It is a large plant, growing up to 5 feet tall.

Heirloom (min. 75 seeds) \$3.00

Silver Queen Okra

57 days. A very beautiful okra with long slender ivory pods. Plants can reach 6 feet tall, and pods are best harvested young, about 5 inches or smaller. One of the prettiest okras.

Heirloom (min. 75 seeds) \$3.25

Onions

Onions are a staple of the kitchen, adding flavor and depth to almost every dish. They are delicious raw in a salad or cooked in a stew. There are many kinds of onions, and there's a perfect one for almost every garden, from the pungent storage onions, to the sweet salad onions, to the delightful bunching onions.

It can be confusing choosing the right onion for your area. Onions develop their bulb according to how much daylight they receive during the summer. Northern growers have longer days in the summer, so they need to grow long day onions. Southern growers have more uniform days throughout the year, so they need short day onions. If you live in the middle of the country, then intermediate day onions are for you. If you choose the wrong onion, it will form green onions, but won't form a bulb.

Bunching Onions (Scallions)

Evergreen Bunching Onion

All onions can be used as young, green onions before they form a bulb, but Evergreen Bunching far outshines them for intense flavor. It's well worth growing some for the amazing flavor it imparts to salads and stir fries.

Heirloom (min. 250 seeds) \$2.75

Heirloom Organic (min. 150 seeds) \$3.75

Heirloom Bulk (min. 1000 seeds) \$5.75

Heshiko Bunching Onion

A beautiful Japanese bunching onion. Significantly more cold hardy than other bunching onions, it is an excellent choice for overwintering.

Heirloom (min. 250 seeds) \$2.75

Evergreen Bunching Onion

Long Day Onions - Northern Regions

Ailsa Craig Prizewinner Onion

100 days. Originally developed in 1887 by David Murray, gardener to the Marquis de Ailsa, Ailsa Craig is a wonderful onion. Medium to large sized, and full of rich onion flavor, they aren't good keepers, but are well worth growing for fresh use. Unlike a lot of sweet onions, they caramelize with a rich and full onion flavor. Long Day.

Heirloom (min. 150 seeds) \$3.50

Annie's Northern Cipollini Onion Blend

Cipollinis are small, flat onions that are traditionally pickled. They are also delicious roasted and sauteed. This northern blend contains red, yellow and white onions for a long day region.

Heirloom (min. 250 seeds) \$2.50

Dorata di Parma Onion

110 days. A beautiful golden late season onion. It has excellent storage qualities, making it a wonderful staple onion. Long to Intermediate day.

Heirloom (min. 250 seeds) \$3.00

Heirloom Bulk (min. 1000 seeds) \$6.75

New York Early Onion

98 days. An early yellow globe onion developed for Northern growers, it produces mild, tender onions. Medium-term storage. Long day.

Heirloom Organic (min. 150 seeds) \$4.25

Ruby Red Onion

110 days. A good storage onion, Ruby Red is a large, firm red onion that stores 5-6 months. It is good sized, with a strong but sweet flavor. Long day.

Heirloom (min. 250 seeds) \$2.50

Walla Walla Sweet Onion

110 days. A large, extremely sweet, yellow slicing onion. Best used fresh and raw, as cooking lessens its flavor. It doesn't store well, but is well worth growing for fresh eating. Long day.

Heirloom (min. 250 seeds) \$3.50

Heirloom Organic (min. 150 seeds) \$4.25

New York Early Onion

Seeds, Sets or Plants Which is Right for Me?

Seeds - If you want your choice of varieties, and you start early enough, this is the right choice. It isn't that hard to start from seed, but it is a little more involved than other vegetables.

Plants - If you are ordering late, or if you want something easy and don't want to go through the work of starting from seed, this is the choice for you.

Sets - I don't recommend them so we don't carry them. They are basically second year plants that go to seed. They don't keep well and usually have a hard center stalk that makes them hard to use.

Intermediate Day Onions Central Regions

Ramata Rossa di Milano Onion

115 days. This red Italian storage onion has an excellent, pungent flavor and is prized by chefs for use in authentic Italian recipes. It is a good keeper, and it tolerates cool weather. Intermediate to Long day.

Heirloom Organic (min. 150 seeds) \$4.25

Rossa Lunga di Firenze Onion

100-120 days. A long, red, torpedo shaped onion with a wonderful, mild, sweet flavor. It is a great salad onion. A short to intermediate day onion, it can be grown in the North, it just produces a smaller bulb there.

Heirloom (min. 250 seeds) \$2.75

Utah Yellow Sweet Spanish Onion

115 days. A large, sweet yellow onion that is loved for its mild, sweet flavor. It does well in Western states and similar climates. It keeps moderately well. Intermediate day.

Heirloom (min. 250 seeds) \$2.50
Heirloom Bulk (min. 1000 seeds) \$5.50

Utah Yellow Sweet Spanish Onion

Onion Plants

Onion plants are a great choice for those who don't want to hassle with onion starts or when you are late for planting. Onion plants come to you as small green onions that you plant. They are shipped to you at the right time for you to plant in your area. Each bunch usually contains 50-75 plants. Onion plant prices include shipping.

Northern Onion Collection

Onion Plants

Short Day Onions Southern Regions

Annie's Southern Cipollini Onion Blend

Similar to our Northern blend, this Southern blend has delicious cipollinis that grow in the short days of the south. This blend contains both red and yellow onions.

Heirloom Organic (min. 150 seeds) \$3.50

Early Texas Grano Onion

180 days. Released in 1944 and a parent of all the super sweet onions including the Vidalia, Early Texas Grano is a sweet, flavorful onion with a yellow skin and white flesh. Short keeper. Intermediate to Short day.

Heirloom (min. 250 seeds) \$2.50

Red Burgundy Onion

100 days. With a mild, sweet flavor, and large red bulbs, this is exactly what you expect from a red onion. A great choice for salads or hamburgers. Excellent keeper. Short day.

Heirloom (min. 250 seeds) \$2.50

Ramata Rossa di Milano Onion

Long day (Northern)

Northern Onion Plants Collection

(3 bunches)

\$27.99

One bunch of each of our three long day onions, Utah Yellow Sweet Spanish, Walla Walla Sweet, and White Sweet Spanish.

Utah Yellow Sweet Spanish Onion (2 bunches) \$19.99

Walla Walla Sweet Onion (2 bunches) \$19.99

White Sweet Spanish Onion (2 bunches) \$19.99

Short day (Southern)

Annie's Southern Onion Plants Collection

(2 bunches)

\$19.99

One bunch of each of our two short day onions, Red Burgundy and Crystal Wax White Bermuda.

Red Burgundy Onion (2 bunches) \$19.99

Crystal Wax White Bermuda Onion (2 bunches) \$19.99

Harris Model Parsnip

Parsnips

With beautiful white roots, this carrot like vegetable is best grown in the spring and fall.

Annie's Parsnip Blend

Parsnips are tricky to grow and each year a different variety works better for me depending on the weather. I like to plant a blend of all our parsnips so that I am sure to have plenty of the variety that is best that year. This is a mix of all our parsnips, All American, Harris Model and Hollow Crown.

Heirloom (min. 150 seeds) \$2.75

All American Parsnip

130 days. With tender, white roots, and a nice mild flavor, All American is an excellent parsnip. It has fairly long roots, which are especially sweet when harvested in the fall.

Heirloom (min. 150 seeds) \$2.50

Harris Model Parsnip

80-85 days. The standard by which all other parsnips are judged. They are long, white and sweet with smooth grained flesh.

Heirloom (min. 150 seeds) \$2.50

Heirloom Bulk (min. 900 seeds) \$5.50

Hollow Crown Parsnip

105 days. One of the oldest varieties of parsnips dating back to at least the 1850's, Hollow Crown, also called Student, is a good flavored, traditional parsnip. It performs best in deep, well prepared soil.

Heirloom Organic (min. 150 seeds) \$3.75

Peas

Peas are a wonderful spring and fall vegetable. They thrive in the cooler weather. Delicious, sweet and tender, they are great alone or as a part of a stew, soup, or stir fry. Some are great shelled, others have delicious, edible pods. Either bush or climbing, there's a pea for every garden.

Bush Shelling Peas

Extra Early Pedigree Pea

50 days. New to our gardens last year, this is the one pea that stood out. It was really early and really delicious. With tender, sweet peas growing on short, 2 foot plants, it was easy to grow and wonderful to harvest.

Heirloom (min. 40 seeds) \$3.00

Green Arrow Pea

65-70 days. A British shelling pea with a bush growing habit. It produces long, thin pods with 9 to 11 sweet peas. A little later than some of the others, with tender, crisp peas, but well worth the wait.

Heirloom Organic (min. 40 seeds) \$4.25

Laxton's Progress #9 Pea

60 days. With short vines and plump pods, Laxton's Progress produces high yields of delicious shelling peas. It has 9 peas per pod, hence the name. They are so delicious that they usually don't make it out of the garden because we eat them all as we pick them.

Heirloom (min. 80 seeds) \$3.00

Lincoln Pea

65-70 days. Lincoln is one of the sweetest peas I've raised. It has straight pods filled with tender peas on bush plants. Yields are highly dependent on the weather. An excellent pea for freezing as well as fresh eating.

Heirloom (min. 80 seeds) \$3.00

Little Marvel Pea

59-63 days. An excellent, all purpose, bush variety pea, it is easy to grow, fast, and very reliable. It grows up to 30 inches tall and produces high yields of tender, sweet shelling peas. Good for fresh eating, canning or freezing.

Heirloom (min. 80 seeds) \$3.00

Heirloom Bulk (min. 500 seeds) \$10.50

Tom Thumb Pea

50-55 days. Developed for container gardening, Tom Thumb produces full sized peas in short pods on miniature plants. It grows 8 inches tall and is a fun centerpiece on your outdoor table. Everyone can harvest a snack off the center of the table!

Heirloom (min. 40 seeds) \$2.75

Wando Pea

68 days. An excellent spring pea, it germinates well in the cold and is the most heat tolerant of the shelling peas. A great choice for those with short springs, who need to have a more heat tolerant pea.

Heirloom (min. 80 seeds) \$3.00

Extra Early Pedigree Pea

Vining Shelling Peas

Alderman (Tall Telephone) Pea

75 days. An old, English variety, it produces good yields of delicious, sweet peas. The plants grow up to about 6 feet tall.

Heirloom (min. 80 seeds) \$3.50

British Wonder Pea

50-55 days. Introduced in England around 1890 and to America in 1904, this shelling pea with large pods grows on vines reaching 3 feet tall. It requires trellising.

Heirloom Organic (min. 40 seeds) \$4.25

Alderman Pea

Snow Peas

Amish Snap Pea

60-70 days. Snap peas, with their edible pods and delicious sweet peas, are definitely a garden favorite. Most snap peas are a new development, coming about in the 1980's, but Amish Snap is the exception. It produces 3-4 inch pods on 5-6 foot tall plants.

Heirloom (min. 40 seeds) \$4.00

Dwarf Grey Sugar Snow Pea

57-60 days. Dwarf Grey Sugar is a wonderful multi-purpose pea. An excellent variety for Asian cooking, the pods are very small, but flavorful and sweet. It also produces a large number of tendrils that are excellent sautéed for snow pea sprouts. To top it off, it's beautiful, with purple and pink bicolor flowers.

Heirloom Organic (min. 40 seeds) \$4.25

Golden Sweet Pea

60-70 days. Wow! These are very special peas. Beautiful purple bicolor flowers lead to pale yellow pods. Not only are they beautiful, but the peas are tender and sweet, with the best flavor of any snow pea I've tried. My absolute favorite!

Heirloom Organic (min. 40 seeds) \$3.00

Heirloom Bulk (min. 200 seeds) \$8.75

Carouby Snow Pea

50-55 days. An heirloom French snow pea dating back to the 19th century, Carouby produces large, sweet snow peas that are delicious even when picked large.

Heirloom (min. 80 seeds) \$3.50

Kathryn's Carouby Snow Pea

Mammoth Melting Snow Pea

68-72 days. Mammoth Melting Snow Pea lives up to its name. Huge, tender, deliciously sweet snow peas grow on 5 foot tall plants.

Heirloom (min. 80 seeds) \$3.00

Heirloom Organic (min. 40 seeds) \$4.25

Golden Sweet Pea

Cowpeas

California Black Eye Cowpea

75 days. A southern favorite, this cowpea is very distinctive with its creamy color and black eyes. A New Year's tradition, these wonderful cowpeas can be eaten fresh or dried.

Heirloom (min. 80 seeds)

\$3.00

White Acres Cowpea

70-85 days. With its delicious, creamy white peas and a long productive season, this is definitely a great cowpea for the home gardener. It has high yields and grows quickly, choking out weeds.

Heirloom (min. 80 seeds)

\$3.00

Peppers

Hot or sweet, which is your favorite? We love them all. Hot peppers are the original peppers, grown in the Americas. But after the discovery of the New World, they soon traveled all over the world, becoming a staple in all the warm climates. From Mexican salsas to Thai and Indian curries, hot peppers are now a part of many cuisines. Sweet peppers were developed from the hot peppers. Coming in all shapes, sizes and colors, the bells and Italian sweet peppers don't have the heat, but instead have a bright, sweet flavor.

Pepper Collections

Annie's Favorite Peppers Collection - Organic

This is a collection of our favorite peppers, a nice variety of shapes, sizes and flavors. From hot to sweet, short and wide to long and thin, red to yellow, this collection has it all. Includes 10 seeds of each of the following varieties:

Anaheim
Early Jalapeno
Golden California Wonder

Marconi Red
Sweet Chinese Giant

Annie's Favorite Peppers - Organic

\$6.75

Rainbow Bell Pepper Collection

For the bell pepper enthusiast, this collection has it all. California Wonder is the only pepper intended to be picked green, though any pepper can be eaten green if you pick them before they turn color. If you let them mature, you'll have a rainbow of different colors. Includes 10 seeds of each of the following varieties:

Chocolate Belle
California Wonder
Orange Bell

Quadrato Giallo d'Asti
Quadrato Rosso d'Asti

Rainbow Bell Pepper Collection

\$6.00

Rainbow Bell Peppers

Mexican Pepper Collection

Mexico is the original home of the pepper, and you can tell by the wide variety of flavorful and interesting peppers available. This is a selection of our favorite Mexican peppers, ones we grow regularly for salsa and all kinds of other fantastic dishes. Includes 10 seeds of each of the following varieties:

Ancho
Chile de Arbol
Habanero

Jalapeno M
Serrano

Mexican Pepper Collection

\$6.00

Peppers are slow to germinate. Patience and heat are your friends. Be patient about transplanting too. It is best to wait until the soil has warmed to 60 F and all danger of frost is past.

Bell Peppers

Bull Nose Pepper

58 days. This red bell pepper was grown by Thomas Jefferson at Monticello. These smaller bell peppers have great flavor and grow on productive sturdy plants. Under certain growing conditions, the ribs can become hot.

Heirloom (min. 25 seeds) \$3.50

California Wonder Pepper

70 days. A wonderful bell pepper, it has thick walls, a blocky shape, and an excellent flavor. It is a great choice for a green bell pepper, or allow it to ripen to red for a delicious red bell pepper.

Heirloom (min. 25 seeds) \$2.50

Chocolate Bell Pepper

60-85 days. This unique heirloom ripens to chocolate brown, with thick, sweet, rich flavored flesh. It is a fairly fast pepper with excellent yields, everyone's favorite pepper!

Heirloom (min. 25 seeds) \$3.00

Golden California Wonder Pepper

62-73 days. A favorite since the 1920's, this golden yellow version of the red California Wonder pepper is a great choice for those who love yellow peppers.

Heirloom Organic (min. 25 seeds) \$4.00

King of the North Bell Pepper

70 days. Developed in Wisconsin for northern growers, King of the North is a good choice if you have a short growing season. Good yields of medium sized, uniform bell peppers that ripen to red.

Heirloom Organic (min. 25 seeds) \$3.75

Mini Bell Peppers

90 days. With a mix of red, yellow, and chocolate, these are delightful peppers to grow. Petite plants produce lots of tiny beautifully colored bell peppers. Chocolate is the sweetest, the yellows are beautiful, and the reds have a nice pepper flavor.

Heirloom Organic (min. 25 seeds) \$3.50

Orange Bell Pepper

90 days. A later variety, it produces pretty orange bell peppers. Peppers are very sweet with a good pepper flavor. Thick fleshed, juicy and crisp, it is excellent raw or cooked.

Heirloom (min. 25 seeds) \$2.50

Quadrato Giallo D'Asti Pepper

70-80 days. An Italian heirloom yellow bell pepper. Huge, block shaped peppers with very sweet, crisp, and tender flesh. Absolutely delicious.

Heirloom (min. 25 seeds) \$2.75

Quadrato Rosso D'Asti Pepper

80-85 days. A large, very sweet, red bell pepper from Italy. It has very sweet and crisp flesh and is good fresh or roasted.

Heirloom (min. 25 seeds) \$2.75

Sweet Chinese Giant Pepper

90 days. These long season peppers grow large under normal conditions, but they will grow to a huge 6 inches long if you thin the fruit. One of the biggest sweet peppers available. It has mild and sweet flesh and ripens to a bright red.

Heirloom Organic (min. 25 seeds) \$3.50

Sweet Chocolate Bell

78 days. Introduced in 1965, this medium sized, blunt nosed pepper is early and reliable. It has red flesh under a chocolate brown skin. It is tolerant of cool nights and is a good choice for those with a short growing season.

Heirloom Organic (min. 25 seeds) \$3.25

Basket of Peppers

Shishito Pepper

Corno di Toro Rosso Pepper

75-85 days. A long, thin, red Italian sweet pepper. Very sweet and flavorful, they are traditionally used as a frying pepper. I love the rich, sweet flavor.

Heirloom (min. 25 seeds) \$2.75

Marconi Red Pepper

73 days. These big beautiful sweet peppers can reach up to a foot long! They are very sweet, and can be eaten fresh or fried.

Heirloom Organic (min. 25 seeds) \$3.50

Romanian Sweet Pepper

75 days. These beautiful peppers mature from a nice ivory color, to orange, to red. Frequently you'll see all three colors on the plant at the same time. They have a thick, juicy flesh, with a mellow, almost paprika flavor.

Heirloom (min. 25 seeds) \$2.75

Shishito Pepper

60-75 days. This is the new favorite for our family. Small, wrinkly peppers that ripen red, they are sweet and delicious.

Just saute up in olive oil and sprinkle with salt and watch them disappear. A favorite in Japan, they are great in stir fries and sautes.

Heirloom (min. 25 seeds) \$3.50

Sweet Banana Pepper

70 days. The sweet variation of Hungarian Hot Wax, these peppers are typically eaten fresh or pickled on salads and sandwiches or on pizzas. They get sweeter as they ripen, but let them go too long and they'll turn a brilliant red. It is a fast pepper and good for cool climates.

Heirloom (min. 25 seeds) \$2.50

Orange Bell Pepper

Chocolate Bell Pepper

Sweet Peppers

Alma Paprika Pepper

70-80 days. An excellent pepper for drying, stuffing or for fresh eating. It ripens from creamy white, to orange, to red and has a nice sweetness, good flavor and little to no heat.

Heirloom (min. 25 seeds) \$3.00

Corno di Toro Giallo Pepper

75-85 days. Amazingly sweet, this long, thin, yellow Italian sweet pepper is both delicious and prolific. It almost tastes like candy, it is excellent raw or cooked.

Heirloom (min. 25 seeds) \$2.75

Hot Peppers

Anaheim Pepper

77 days. A mild to medium hot, long, green chili pepper that is a great choice for making chili rellenos. They can grow very large and are thicker walled than most chili peppers.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$3.50

Ancho (Poblano) Pepper

90 days. I love ancho peppers. It's a hot pepper, but very mild and full of pepper flavor. It makes a wonderful stuffing pepper for chili rellenos, or a good base pepper for a mild Mexican salsa. A little slower to mature than most hot peppers, but well worth the wait.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$3.50

Black Hungarian Pepper

75 days. With green leaves, purple flowers, and black fruit, many people grow this pepper as an ornamental landscaping plant. The peppers are about the size and shape of jalapenos, medium hot, and they can be dried and ground to make paprika, but they really shine when roasted.

Heirloom (min. 25 seeds) \$2.75

Cascabel Pepper

Also known as the rattle pepper, it has always been one of my favorites. Round to oblong peppers, ripen red, and are best dried. It can be as hot as a jalapeno or a bit hotter. It has a smoky and almost fruity flavor that is delicious in salsa or made into a powder for chili.

Heirloom (min. 25 seeds) \$3.25

Cayenne Pepper

85 days. The traditional hot red pepper used to flavor lots of dishes, Cayenne is a nicely flavored hot pepper. It is easy to grow and easy to dry. I just leave them out on the counter till they are dry and ready to be ground for my own, delicious cayenne powder.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$4.25

Chile de Arbol Pepper

92 days. This is Kamaile's favorite pepper. It has a great, smoky flavor with a moderate amount of heat. I find it the perfect balance for adding heat to a dish while still getting an interesting and good flavor.

Heirloom (min. 25 seeds) \$3.50

Early Jalapeno Pepper

60 days. Early Jalapeno is a fast growing pepper, medium hot, and more tolerant of cool weather than most peppers. It has excellent yields of bright green peppers. The peppers will turn red if you leave them on the plant long enough.

Heirloom (min. 25 seeds) \$2.50
Heirloom Organic (min. 25 seeds) \$3.75

Greek Golden Pepperoncini Pepper

70 days. With shorter fruit than Italian Pepperoncini, this is the pepper that you commonly find pickled in jars at the grocery store. They ripen from green to yellow. It has very little heat, so little that some people consider it a sweet pepper.

Heirloom Organic (min. 25 seeds) \$3.50

Guajillo Pepper

85 days. A wonderful chili, typically dried and used to make salsa or chili powder. It has 6-8 inch long red-brown peppers with moderate heat. I really enjoy this pepper roasted, peeled and sliced in a squash soup.

Heirloom (min. 10 seeds) \$3.00

Habanero Pepper

90-100 days. One of the hottest peppers, habaneros are also very flavorful. Once you get past the heat, they have an almost apricot fruitiness. I like to simmer a few in tomato sauce, removing the peppers before serving. The wonderful flavor and a bit of the heat are transferred to the sauce.

Heirloom Organic (min. 25 seeds) \$4.25

Hungarian Hot Wax Pepper

70 days. Hungarian Hot Wax is both early and prolific. A milder hot pepper, it can be used fresh, dried or cooked. It's a favorite sliced for salads or cooked on pizza. It's a good choice for those with cooler climates.

Heirloom (min. 25 seeds) \$2.50

Italian Pepperoncini Pepper

75 days. The traditional Italian pickling pepper, it produces high yields of long, thin sweet peppers with just a little heat. Beautiful yellow peppers that ripen red, they are excellent both pickled or eaten raw.

Heirloom Organic (min. 25 seeds) \$3.50

Jalapeno M Pepper

70-80 days. Jalapeno M is the standard jalapeno. It is both hot and flavorful, and can be used in anything from salsa to roasted stuffed peppers to jalapeno poppers. Traditionally they are also dried and then smoked to make chipotles.

Heirloom (min. 25 seeds) \$2.50

Padron Pepper

60 days. Padron is a small hot pepper famous in Spain where they eat it sautéed in olive oil with sea salt as a tapas appetizer. If the peppers are harvested at 1 to 1 1/2 inches long, most will be mild with about one in twenty hot. It's kind of like playing Russian roulette, who knows if the next one will be the hot one! Leave them to get to 2 to 3 inches long and all of the peppers will be hot.

Heirloom (min. 25 seeds) \$2.75

Serrano Pepper

85 days. This small, green Mexican pepper is slightly hotter than a jalapeno. It is used to add heat to salsa, or in anything that you want a little more heat.

Heirloom (min. 25 seeds) \$2.50

Thai Hot Pepper

85 days. Thai Hot is a very hot, flavorful pepper in the cayenne family. The tiny peppers grow upright, frequently above the foliage, making it a great ornamental pepper. The chilies are used to add a kick to Thai and other Asian dishes.

Heirloom (min. 25 seeds) \$3.25

Tabasco Pepper

75 days. The original Tabasco Sauce pepper, this cajun pepper is very flavorful with an immediate, intense heat. It grows with little finger shaped peppers that point up, covering the plant in beautiful little peppers. It is a good variety to grow to make your own hot

pepper sauce.

Heirloom (min. 25 seeds) \$2.75

Potatoes

Potatoes are fun and easy to grow. They thrive in really rich soil. Poor soil leads to bugs, so find the most compost you can for your potato beds. Just plant the 'seed potatoes' which are just pieces of potato, and watch them grow. Harvest once the leaves die off and you'll enjoy some of the best potatoes you've ever eaten!

See AnnieHeirloomSeeds.com in the spring for varieties and pricing. Potatoes will be shipped in early May. All potato varieties are subject to availability. They are more prone to crop failures than other vegetable seeds, so when they are unavailable we will substitute a similar variety unless you note otherwise.

Rebecca K's Grandchildren

Radishes

Bright and crisp with a pleasant bite, radishes are loved as one of the first vegetables harvested in spring. Beautiful, with a rainbow of reds, pinks and whites, they come in a variety of shapes and sizes. A welcome addition to a salad, they are also delicious roasted or tossed in a stir fry.

Annie's Radish Mix

Spring Radishes

Annie's Radish Mix

25-35 days. A beautiful mix of colors, Annie's Radish Mix is a wonderful way to begin the spring garden! Fast, easy and rewarding, radishes are a great way to begin and end the season. This mix has a collection of red, pink and white radishes.

Heirloom (min. 200 seeds)	\$2.75
Heirloom Organic (min. 200 seeds)	\$3.50
Heirloom Bulk (min. 1000 seeds)	\$6.50

Cherry Belle Radish

26 days. The standard radish, Cherry Belle is small, red, round, and full of traditional radish flavor. Mild when grown in cool weather, but with that characteristic radish bite.

Heirloom (min. 200 seeds)	\$2.50
Heirloom Organic (min. 200 seeds)	\$3.50
Heirloom Bulk (min. 1000 seeds)	\$5.50

Iwai Daikon Radish

Early Scarlet Globe Radish

20-28 days. If you are looking for a really fast radish, this is the one for you. It is mild with very little heat, a little bit of sweetness and a nice crisp texture.

Heirloom (min. 200 seeds)	\$2.75
---------------------------	--------

French Breakfast Radish

25 days. Both beautiful and delicious, these oblong shaped red radishes with a white tip are mild, crisp and flavorful.

Heirloom (min. 200 seeds)	\$2.50
Heirloom Organic (min. 200 seeds)	\$3.50

Iwai Daikon Radish

50 days. This is an absolutely beautiful little daikon radish. It's a miniature daikon, fast to maturity, perfectly formed, and beautifully white.

Heirloom (min. 100 seeds)	\$3.00
---------------------------	--------

Cherry Belle Radish

Miyashige White Daikon Radish

65 days. Best planted in late summer for a cool growing season, Miyashige produces roots that can reach 15 inches long. These radishes are mild, crisp and store well.

Heirloom Organic (min. 100 seeds)	\$3.50
-----------------------------------	--------

Pink Beauty Radish

27 days. These are beautiful little radishes. Bright fuchsia pink, round and almost blemish free. They have that distinctive radish flavor, but are a bit milder than the red radishes. They are a great addition to a mix or just grown on their own.

Heirloom Organic (min. 200 seeds)	\$3.50
-----------------------------------	--------

Watermelon (Red Meat) Radish

60-70 days. This unique variety has a white bottom, green shoulders, and bright pinky-red flesh. It bolts when planted in the spring, so it is best grown in late summer and fall.

Heirloom (min. 200 seeds)	\$2.75
---------------------------	--------

Winter Radish

Black Spanish Radish

50 days. A round winter radish with black skin and white flesh. It is crisp, hot and a good keeper.

Heirloom (min. 200 seeds)	\$2.75
---------------------------	--------

Radishes are a spring and fall crop. They get very hot and go to seed when you try to grow them in the heat of summer.

Rhubarb

A perennial that comes back year after year, a rhubarb patch is a wonderful, easy care, spring vegetable.

Victoria Rhubarb

Victoria has been around for more than 150 years. It has large, fat stems with bright red skin, it's not stringy, and it has an apple-gooseberry flavor with a hint of lemon or grapefruit. It can be used in jams, tarts, soups and sauces.

Heirloom (min. 25 seeds)

\$2.50

American Purple Top Rutabaga

Wilhelmsburger Rutabaga

Rutabagas

Rutabagas are a cross between a turnip and a cabbage. Most have a golden yellow color, a different but similar flavor, and tend to be larger than turnips.

American Purple Top Rutabaga

90 days. This is an American variety of a yellow Swedish rutabaga that dates back to the 1920's. It has large yellow round roots with purple shoulders. It has pale yellow flesh that is sweet and fine grained.

Heirloom (min. 200 seeds)

\$2.75

Heirloom Bulk (min. 1000 seeds)

\$4.75

Gilfeather Rutabaga (Turnip)

85 days. This is a rare cross of a turnip and a rutabaga developed in 1860 by Vermont famer Jack Gilfeather. It has a white root and is mild and sweet, with almost a kale-like flavor.

Heirloom Organic (min. 100 seeds)

\$3.75

Nadmorska Rutabaga

90 days. This rutabaga is slightly elongated, more of a football shape than round like a traditional rutabaga. It has green shoulders and sweet golden colored flesh.

Heirloom Organic (min. 100 seeds)

\$3.75

Wilhelmsburger Rutabaga

95 days. This German heirloom, dating back to 1935, is highly sought after in Northern Europe. It has green shoulders and pale yellow flesh that is very fine grained. My favorite rutabaga, it has a delicious mild flavor that is excellent roasted or mashed.

Heirloom (min. 200 seeds)

\$2.75

Spinach

One of the first vegetables of spring and the last grown in the fall, spinach is a wonderful way to extend the season. Pick the baby leaves for a salad or saute the larger leaves for a wonderful side, spinach is one of the garden favorites.

America Spinach

50 days. A beautiful, very savoyed, dark green spinach. It has an excellent flavor and is slower to bolt than other varieties, making it a good choice for warmer climates.

Heirloom (min. 200 seeds)

\$3.00

Bloomsdale Long Standing Spinach

48 days. This is our favorite spinach. It's the sweetest of the spinaches that we've tried; tender and mild, but flavorful. It is also slow to bolt, making it an excellent choice all around.

Heirloom (min. 200 seeds)

\$2.75

Heirloom Organic (min. 200 seeds)

\$3.75

Heirloom Bulk (min. 1000 seeds)

\$6.25

Giant Winter Spinach

50 days. A wonderful giant spinach with huge, dark green, semi-savoyed leaves. It is very cold hardy and can tolerate damp conditions. A great choice for overwintering in the garden.

Heirloom (min. 200 seeds)

\$3.00

Heirloom Organic (min. 200 seeds)

\$3.50

Heirloom Bulk (min. 1000 seeds)

\$6.75

Merlo Nero (Ricchio d'Asti) Spinach

48 days. This is a beautiful spinach with crinkly leaves, but it really stands out for flavor. A mild spinach that is low in oxalic acid making it sweet and delicious. A great choice for eating raw in salads.

Heirloom (min. 200 seeds)

\$2.75

Viroflay Spinach

50 days. Viroflay, a gourmet French heirloom, is the giant of spinaches. Commonly grown for baby leaves that are excellent in salads, the larger leaves stay tender and flavorful and are good sauteed. Because of the large leaves, Viroflay has excellent yields.

Heirloom (min. 200 seeds)

\$2.75

Giant Winter Spinach

America Spinach

Merlo Nero Spinach

Bloomsdale Long Standing Spinach

Spinach doesn't like it hot. It germinates best at 60 F and does very poorly above 70 F.

Squash

Zucchini, pumpkins, winter squash, and even spaghetti, squash is loved for its delicious flavor and wonderful shapes, sizes and colors. Zucchini is a wonderful summer vegetable, delicious sauteed, grilled, or in bread. Winter squashes were developed for their sweet, rich orange flesh and their ability to be saved for the entire winter. And who doesn't want to grow a bunch of pumpkins to carve for Halloween or to decorate a Thanksgiving feast?

Summer Squash

Annie's Summer Squash Mix

This is a beautiful mix of our favorite summer squashes and zucchinis, guaranteed to add beauty, interest, and great taste to your dinner table! It has a little of everything, yellow, dark green, pale green and round. It contains Bianco di Trieste, Black Beauty, Tondo di Piacenza, and Early Prolific Straight Neck.

Heirloom (min. 25 seeds) \$3.25

Alberello de Sarzana Zucchini

50-55 days. "Little Tree of Sarzana," this light green zucchini is beautiful and delicious. It is nice and sweet with a good zucchini flavor and texture.

Heirloom (min. 25 seeds) \$3.00

Bianco di Trieste Zucchini

46 days. This is a really nice light green zucchini. It is also known as Half Long White because of its pale color and shorter size. I love its mild, yet rich zucchini flavor.

Heirloom (min. 25 seeds) \$3.00

Black Beauty Zucchini

52 days. The traditional, dark green zucchini. It is our favorite, because of its rich zucchini flavor. Pick it young and tender for best results. It is very prolific as well, though after you taste it, chances are you'll wish you had planted a couple more.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$4.25

Heirloom Bulk (min. 150 seeds) \$10.00

Cocozelle di Napoli Zucchini

50 days. Cocozelle di Napoli is a large striped zucchini from the Naples region of Italy. A giant zucchini, it is tender and seedless when twice the size of other zucchinis. It has a great flavor and good yields.

Heirloom (min. 25 seeds) \$2.75

Early Prolific Straight Neck Squash

42 days. Aply named, this yellow squash has the shape of a zucchini and huge yields. It has a nice flavor and is a great choice if you want lots of yellow squash.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$3.75

Romanesco Zucchini

52 days. Known for its excellent flavor, Romanesco is a gourmet zucchini. It is medium green in color with dark green lengthwise stripes. It is very tender, mild, and highly prized. This is Rebecca's favorite because of the firm texture and sweet taste.

Heirloom (min. 25 seeds) \$3.00

Scallop Squash Mix

46-60 days. Picked small, scallop squash make a delightful side dish. Grown larger, they are delicious stuffed or sliced and made into a vegetable lasagna or roasted. This mix contains three beautiful scallop squash, Bennings Green Tint, Early White Bush and Yellow Bush Scallop Squash.

Heirloom (min. 25 seeds) \$3.25

Heirloom Organic (min. 15 seeds) \$4.75

Yellow Crookneck Squash

55 days. Yellow Crookneck squashes are warty, golden yellow summer squash with a great, sweet summer squash flavor. They are wonderful sautéed or roasted.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$3.75

Summer Fordhook Zucchini

Alberello de Sarzana Zucchini

Bianco di Trieste Zucchini

Winter Squash

Potimarron Squash

Annie's Winter Squash Mix

Winter squash are all unique and beautiful with different shapes, sizes, colors and flavors. Enjoy this beautiful mix of our favorite and versatile winter squashes, sure to inspire delicious dinners of soups, roasted squash and stuffed squash! It contains Burgess Buttercup, New England Pie, Sweet Dumpling, Table Queen Acorn, and Waltham Butternut.

Heirloom (min. 25 seeds) \$3.25

Blue Hubbard Squash

110 days. These are huge, blue warted squash. It has a very hard rind, requiring a lot of work to get in. However, this also makes them a really good keeper.

Heirloom (min. 25 seeds) \$2.75

Burgess Buttercup Squash

100 days. I love buttercup squash. A nice size for a smaller family, serving about 4 people with one squash. It has a nice sweet and rich squash flavor.

Heirloom (min. 25 seeds) \$2.75

Delicata Squash

95 days. A new family favorite, Delicata is super sweet, tender, and delicious. It is the squash for those who want easy, fast and gourmet. The skins are thin and can be eaten, so you only need to slice, toss with olive oil and roast for excellent squash fries, or toss with maple syrup for a deliciously sweet and decadent dish.

Heirloom (min. 25 seeds) \$2.75

Green Stripe Cushaw Squash

95 days. These huge, 10-20 pound, crookneck squash are pale cream with green stripes. They have a really nice flavor and retain a bit of a spaghetti squash texture when roasted. They are excellent roasted or made into soup.

Heirloom (min. 25 seeds) \$2.75

Potimarron Squash

85-95 days. These beautiful, dark orange, pear shaped squash are a special treat. Just the right size for a meal, 3-4 pounds, they are delicious roasted, made into soup, and even stuffed. Add in excellent yields, and you have an all-around wonderful squash.

Heirloom Organic (min. 15 seeds) \$4.00

Spaghetti Squash

100 days. With a yellow rind and a pale yellow flesh, spaghetti squash has flesh that falls apart into shreds when it's cooked. Commonly used as a pasta replacement, I love it served with brown sugar and butter. It is also one of the best keepers.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$4.25

Winter Dickinson Squash

Sweet Dumpling Squash

90 days. Small and round with a flattened top, Sweet Dumpling is beautiful with cream colored skin with green stripes and specks. It has sweet, tender flesh and is my favorite for stuffing. Add in its high yields and excellent storage properties, and Sweet Dumpling is sure to please!

Heirloom (min. 25 seeds) \$2.75

Table Queen Acorn Squash

92 days. Small, green, acorn-shaped squash. The flesh is sweet and rich with a wonderful flavor. One squash feeds one or two people, so it's a good choice if you have a small family.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$3.75

Waltham Butternut Squash

85 days. Butternut squash is one of the sweetest squashes. Deep orange flesh with a small seed cavity at the bottom, it is an easy squash to use because most of the squash is solid flesh. It is also a good keeper, most lasting the entire winter in my basement with no additional care.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$3.75

Heirloom Bulk (min. 150 seeds) \$8.50

Winter Dickinson Squash

115 days. These are the largest squash I've ever grown. They are slightly elongated acorn squash shaped, mature to the color of a butternut squash, and have an amazing, sweet, rich flavor. They weighed in at 30-40 pounds, and I harvested 6 from one hill. Amazing!

Heirloom Organic (min. 15 seeds) \$4.25

Jaune Gros de Paris Pumpkin

Pumpkins

Atlantic Giant Pumpkin

The first of the Giant Pumpkin strains, this is the one to grow if you want HUGE pumpkins. Cut back to only one pumpkin per plant, feed, care and see what you can do. These can reach hundreds of pounds with lots of attention and care.

Heirloom (min. 10 seeds) \$3.50

Cinderella Pumpkin

100 days. This old French pumpkin, Rouge Vif d'Etampes, is squatty and short like Cinderella's carriage, rather than round like jack-o-lantern pumpkins. It is orangey-red and highly pleated, great for decoration but also good for eating.

Heirloom (min. 25 seeds) \$3.25

Connecticut Field Pumpkin

120 days. The traditional Jack-o-lantern pumpkin, Connecticut Field has been grown for years and is still a very popular commercial variety. Good yields of large, orange pumpkins, tall and fat. They make great jack-o-lanterns, or use them to make pumpkin pie.

Heirloom (min. 25 seeds) \$2.75

Heirloom Bulk (min. 150 seeds) \$8.50

Howden Pumpkin

115 days. A descendent of Connecticut Field, you've probably seen Howdens in the grocery store. With 20-25 lb. fruit, deep ribs, and solid handles, it makes great jack-o-lanterns as well as pies and roasted seeds.

Heirloom Organic (min. 15 seeds) \$4.75

Jaune Gros de Paris Pumpkin

This is a really nice pumpkin, with a squatty pumpkin shape, pale peach rind and orange flesh. It is grown in Italy as a jam pumpkin, and it lives up to its name. Pumpkin jam and pie fillings made from this creamy, smooth, sweet flesh are amazing!

Heirloom (min. 25 seeds) \$3.00

New England Pie Pumpkin

95 days. If you love pumpkin pie, New England Pie is the pumpkin for you. Small, perfectly shaped, round, orange pumpkins packed with lots of seeds for roasting and lots of wonderful, sweet pumpkin flesh. Also known as Small Sugar.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$3.75

Alpine Strawberries

On the quest for the ever larger and prettier strawberry, real strawberry flavor was lost. But the original strawberry is still out there, the alpine strawberry. These tiny little strawberries are packed with sweetness and intense flavor. They are so good that everyone goes hunting, trying to be the first one out to pick and eat all the berries. Freeze the seeds for 2 weeks before sprouting.

Alexandria Alpine Strawberry

Known for its high yields, this strawberry really performs. With lots of little red berries, packed with an intense, sweet strawberry flavor, this is definitely a special berry.

Heirloom (min. 50 seeds) \$3.00

Yellow Wonder Alpine Strawberry

Pale yellow, and sweeter than the red strawberries, they have a pineapple flavor mixed with strawberry. These are my favorite!

Heirloom (min. 50 seeds) \$3.00

Kathryn's Yellow Wonder
Alpine Strawberry

Sweet Potatoes

Sweet potatoes originated in Central and South America and is only distantly related to the potato. It has a delicious, sweet root that is wonderful roasted or baked. Sweet potatoes do best in a warmer climate. They need a long, warm growing season, but there are varieties that can be grown in a cooler climate as well.

Beauregard Sweet Potato

Originally released by Louisiana State University, Beauregard matures fast with high yields. It is a good choice for Northern growers.

Centennial Sweet Potato

The most popular variety of sweet potato grown, Centennial is a shorter season sweet potato that stores well.

White Yam Sweet Potato

These are our favorite sweet potatoes. They are unique with white flesh and russet skin. They have a dryer texture, but cook up soft and creamy.

Sweet Potato Pricing

Prices are for one variety of sweet potato. Varieties can not be combined for the quantity discounts. Prices include shipping.

12 plants	\$17.00
25 plants	\$22.00
50 plants	\$31.00
100 plants	\$52.00

Swiss Chard

Closely related to the beet, Swiss Chard is grown for its delicious greens.

It can be started in the spring and grows all the way through the fall, producing greens the entire time, from baby to large leaves, all delicious and tender. So many vegetables need to be harvested regularly, but swiss chard holds in the garden and waits for you to decide you want to pick it. Similar in flavor to spinach, it is a great salad option during the heat of the summer when spinach just won't grow. It also overwinters in the garden, providing some of the first greens of spring.

Annie's Baby Swiss Chard Blend

This mix of Swiss Chards includes varieties that are excellent as baby greens as well as full-sized plants. Enjoy delicious salads in the middle of the summer when your lettuces bolt and turn bitter.

Heirloom (min. 150 seeds) \$3.00

Annie's Rainbow Swiss Chard Blend

50-60 days. With all their rainbow colored stems, this collection of Swiss Chard is sure to please. A beautiful mixture of orange, gold, magenta, white and red chard.

Heirloom (min. 150 seeds) \$3.25
Heirloom Bulk (min. 500 seeds) \$7.75

Perpetual Spinach Swiss Chard

60 days. A cut and come again Swiss Chard, it is mostly grown for the young leaves. It is similar in flavor to fresh spinach, but has the advantage of being much less sensitive to heat than spinach.

Heirloom (min. 150 seeds) \$3.00

Five Color Silverbeets Swiss Chard

28-55 days. What a beautiful chard, with brightly colored stalks and green and red tinged leaves. And it tastes great, with a mild and delicious chard flavor. Not as cold hardy as some other chards.

Heirloom Organic (min. 75 seeds) \$3.75

Five Color Silverbeets Swiss Chard

Red Rhubarb Swiss Chard

50-60 days. This Swiss chard looks almost like rhubarb, with its red stalks and green leaves. It has a nice mild flavor, and is less bitter than other Swiss Chards. It cooks up beautifully, with deep green leaves and beautiful red stalks and veins.

Heirloom (min. 150 seeds) \$2.75
Heirloom Organic (min. 75 seeds) \$3.75

Lucullus Swiss Chard

60 days. Lucullus, released in 1914, named after an ancient Roman general who threw lavish parties in his large gardens. It has crinkly, green leaves with white ribs that are both tender, mild and delicious. More tolerant to heat and cold than most, it is an excellent all around chard. This is my favorite variety to overwinter in the garden.

Heirloom (min. 150 seeds) \$2.75

Tomatillos and Ground Cherries

These little green, tart fruits are a traditional Mexican vegetable used in salsa verde. Ground cherries are closely related to tomatillos, growing lower to the ground, and when ripe have a wonderful sweetness to go with the tart flavors.

Verde Tomatillo

Aunt Molly's Ground Cherry

Purple Tomatillo

Purple Tomatillo

78 days. A beautiful change of pace, these deep purple tomatillos make a spectacular salsa. A little smaller than the verde tomatillo, they have a sweeter flavor than most tomatillos.

Heirloom Organic (min. 50 seeds) \$3.00

Verde Tomatillo

70 days. Verde is the standard green tomatillo, and for good reason. Its high yields of medium sized green tomatillos make it a great choice.

\$3.50 Heirloom Organic (min. 50 seeds) \$3.00

Tomatoes

Fresh, dried or canned, tomatoes are one of the most versatile and loved vegetables of the summer garden. With the wide variety of colors, shapes, sizes and the amazing flavor that only heirloom tomatoes can provide, it's no wonder that heirloom tomatoes are highly prized. From the sweet yellows and cherry tomatoes, the rich, deep flavor of the Italian paste tomatoes, the wonderfully fruity flavor of the bicolor beefsteaks, to the almost spicy and salty flavor of the blacks, there's a tomato for every palate. And why not do what I always do, plant a lot of varieties so that we can enjoy them all!

Most heirloom tomatoes are indeterminate, meaning that fruit will continue to set throughout the season. A few heirloom tomatoes are determinate, with large yields of tomatoes all at once. Determinate tomatoes are great for canning and preserving, since the whole crop comes in at about the same time. All tomatoes listed are indeterminate unless otherwise noted.

Northern Lights Tomato

Grushovka Tomato

Starting Tomatoes and Peppers

Starting from seed can be scary, but if you follow these simple instructions Kathi says 'It's MAGIC,' if you follow the rules it works every time.

1. Use a soil mix of coconut coir, perlite, vermiculite and worm castings. Peat repels water and can make your tomato seeds dry out, even when you think they have water.
2. Only lightly cover your seeds. Tomatoes require light to germinate, so if you plant them deep they won't come up.
3. Bottom water your pots. I like to use a Jiffy Easy Grow Greenhouse and keep it with 1/2-1 inch of water in the tray. I place the pots in this and always keep it watered.
4. Use a heat mat. Tomatoes on a heat mat germinate in 3-5 days and peppers 7-10 instead of two weeks to a month. The longer they sit, the more likely they are to rot instead of sprout.
5. Keep them somewhere that they get a lot of light. Your plants will get leggy if they don't get enough light. They grow a long, weak stem in the attempt to get to light. If you have leggy tomato plants, they aren't a lost cause. Just plant the stems and they'll grow into strong plants outdoors.
6. Harden off your starts. The week before you want to plant them, start getting them used to being outside. Put them outside in a protected place for a couple of hours a day to get them used to the sun and wind.

Seed Starting Supplies

Seed Starting Mix

This is the seed starting mix that we use. A mixture of coconut coir, perlite, vermiculite and worm castings. The small is enough to fill one Jiffy Easy Grow Greenhouse.

Small Seed Starting Mix (1-2 gallons) \$9.50
Large Seed Starting Mix (1-2 gallons) \$17.50

Mykos Soil Inoculant (Mycorrhiza)

We were looking for a better inoculant, one that works on more than just legumes, and we found it! Mycorrhiza is a beneficial fungus that lives on the roots of your plants. It makes little threads that transport water and nutrients to the roots. When we used it on our herbs, it had about a 25-50% increase in germination, and it helped reduce our need to water. We are convinced! Just follow the directions and you'll have healthier starts.

Mykos (100 g) \$6.50

Jiffy Easy Grow Greenhouse

I've been using these for years for my starts. A simple plastic tray and cover with 72 cells.

Jiffy Easy Grow Greenhouse \$14.00

Hydrofarm Heat Mat

Tomatoes, peppers and eggplants need it nice and warm to germinate, and this is the way we do it. Each mat is waterproof and sized to fit under one Easy Grow Greenhouse

Hydrofarm Heat Mat \$32.00

Soil Thermometer

This simple dial thermometer is just what you need to monitor soil temperatures, both for seed starting and for testing garden soil for the right temperature to plant beans, corn and squash.

Soil Thermometer \$9.50

Windowsill Seed Starting Kit

Everything you need to get started with starting your own seeds in a nice, compact little set-up. The heat mat will fit in a windowsill (6x14 inches) and comes with enough cells to start up to 24 plants. We've included enough of our seed starting mix to fill the cells twice and a small fertilizer to keep your seedlings healthy.

Windowsill Seed Starting Kit \$38.00

Tomato Collections

Tomatoes are the star of the heirloom garden. With so many interesting shapes, colors and flavors, it is hard to pick just one! And why would you want to? Our collections are designed to allow you to try a wide variety of heirloom tomatoes without having to buy tons of seeds that you don't need. We've worked hard to make sure each collection is the best varieties we have to offer. Each collection contains 5 different tomatoes with just 10 seeds of each variety. Every collection is unique, so order one or five and you'll get all different tomatoes.

Annie's Favorite Tomatoes Collection - Organic

All heirloom tomatoes are great, but these five are our favorites of them all. Black Krim for that excellent black tomato flavor, Thessaloniki because it's so sweet and good, Gardener's Delight cherry tomato because it's early, sweet, flavorful and prolific, Amish Paste for excellent sauce, and Mortgage Lifter because of its big, beautiful, delicious fruit.

Amish Paste	Mortgage Lifter
Black Krim	Thessaloniki
Gardener's Delight	

Annie's Favorite Tomatoes Collection - Organic \$6.50

Annie's Best Beefsteak Tomatoes Collection

Beefsteaks are the big, hearty tomatoes, large enough that one slice is enough for your hamburger. Clearly people throughout the years have loved beefsteaks, as there are a ton of heirloom varieties. This collection contains five of our favorites, all different colors.

Amana Orange	Striped German
Black Sea Man	Tasty Evergreen
Ponderosa Pink	

Annie's Best Beefsteak Tomato Collection \$6.25

Italian Tomatoes Collection

After tomatoes were brought back to Europe from the New World, Italy was the country that adopted the tomato more than any other. From sun-dried tomatoes, to sauces like marinara, to fresh uses like bruschetta, Italian tomatoes are as varied as their uses. This collection consists of five great traditional Italian varieties.

Cuor di Bue Albenga	Rosso Sicilian
Italian Heirloom	San Marzano
Principe Borghese

Southern Tomato Collection \$6.50

Rainbow Cherry Tomatoes

Early Tomatoes

Beliy Naliv Tomato

54 days. My favorite early tomato, it has excellent yields of 2 inch round, red tomatoes. Unlike most early tomatoes, it isn't bland but is packed with lots of rich tomato flavor. Semi-determinant.

Heirloom (min. 25 seeds) \$3.00

Bloody Butcher Tomato

55 days. A highly prolific, very early tomato with 1-2 inch round fruit. They are mostly blemish free and perfectly round. Bloody Butcher is a good choice if you want an early tomato or live in an area with a short growing season.

Heirloom (min. 25 seeds) \$3.50

Grushovka Tomato

65 days. In our tomato trials, this was one of the winners for its interesting and delicious flavor. With pink to red moderately sized tomatoes, this early tomato is also packed with amazing flavor. It grows on bushy plants and is a great choice for container gardening.

Heirloom (min. 25 seeds) \$3.50

Moskvich Tomato

60 days. The largest of the early red tomatoes, it produces good yields of red tomatoes with a mild tomato flavor. If you have a short season or just want early slicing tomatoes, Moskvich is an excellent choice.

Heirloom Organic (min. 25 seeds) \$3.50

Mountain Princess Tomato

60 days. Grown for generations in West Virginia, this early tomato is a great choice for slicing or canning. It has excellent yields of round 8 oz red tomatoes with a mild tomato flavor. Determinate.

Heirloom Organic (min. 25 seeds) \$3.75

Northern Lights Tomato

55 days. Wow! It's everything you could ask for, a large, 4 inch tomato so early it rivals the fastest tomatoes out there, with amazing tomato flavor. I couldn't believe it! Northern Lights produces delicious, fruity flavored red and yellow bicolor tomatoes, and will produce from early in the season through frost.

Heirloom (min. 10 seeds) \$3.50

Stupice Tomato

52 days. Originally from Czechoslovakia, Stupice (pronounced Stoo-Peech-ka) is one of the earliest tomatoes. It produces average yields of 2-3 inch, mild flavored, red tomatoes.

Heirloom (min. 25 seeds) \$2.75

Southern Gardeners

Do you have a short spring and fall tomato season? The Early tomatoes are a great choice for you! Harvest a delicious crop of tomatoes before the heat of summer sets in.

Beliy Naliv Tomato

Paste Tomatoes

Amish Paste Tomato

81 days. A great choice for making sauce or salsa. Indeterminate plants with huge yields of large, tender, meaty tomatoes. A great tomato for making a lot of sauce. A later tomato, but well worth the wait.

Heirloom Organic (min. 25 seeds) \$3.25

Gilbertie Paste Tomato

85 days. These are amazing paste tomatoes. Huge, banana shaped tomatoes with an excellent, rich flavor. Such meaty tomatoes that are this big are rare. Add in the excellent flavor, and you have a winner.

Heirloom Organic (min. 25 seeds) \$3.75

Martino's Roma Tomato

75-80 days. A really nice small paste type tomato. Its fruit is tender and juicy. A determinate plant, the plants are smaller but produce large yields of fruit earlier in the season than most paste type tomatoes.

Heirloom Organic (min. 25 seeds) \$3.75

Opalka Tomato

75 days. This is a very meaty paste tomato with less juice than most tomatoes. It is very low in seeds and a great choice for sauce. This is our friend Ron's favorite tomato, and after making sauce, I can see why. Delicious, rich and creamy, the sauce is full of wonderful tomato flavor.

Heirloom (min. 25 seeds) \$3.00

Rio Grande Tomato

77 days. A large, paste tomato with huge yields, this is a great choice for sauce and juice for those with extremes in temperatures, both hot and cold. Determinate.

Heirloom (min. 25 seeds) \$2.75

Rio Grande Tomato

Roma Tomato

70 days. This classic paste tomato is one of the best sauce tomatoes out there. It is determinate, so all of its fruit will ripen at about the same time, making canning a snap.

Heirloom (min. 25 seeds) \$2.75

San Marzano Tomato

78 days. A well-known Italian heirloom tomato highly prized for its exceptional tomato sauce, San Marzano is very firm with moderate sized, roma shaped tomatoes.

Heirloom Organic (min. 25 seeds) \$3.25

Cherry Tomatoes

Black Cherry Tomato

64 days. This is a spectacular cherry tomato. Beautiful clusters of one inch tomatoes ripen on indeterminate vines. The flavor of this tomato is amazing, sweet and rich. A wonderful snacking tomato.

Heirloom Organic (min. 25 seeds) \$3.25

Black Plum Tomato

72 days. Small, but flavorful, these small, plum-shaped tomatoes are great for fresh eating or sauce. They have the typical rich flavor of a black tomato with blemish-free fruit that resists cracking.

Heirloom (min. 25 seeds) \$3.00

Blondkopfchen Tomato

75-80 days. What a cutie. These huge plants produce hundreds of tiny, half inch, round, deep gold colored tomatoes that are bursting with intense sweetness. Don't be surprised if the kids sneak into the garden and eat them all when you aren't looking.

Heirloom Organic (min. 25 seeds) \$3.25

Chadwick Cherry Tomato

70 days. Chadwick Cherry has larger, 1 inch, round, red cherry tomatoes that grow in clusters of 6. They have a more rich tomato flavor than most cherry tomatoes, more of a balanced flavor than weighted to sweet.

Heirloom Organic (min. 25 seeds) \$3.25

Gardener's Delight Tomato

65 days. Extra sweet, bursting with tomato flavor and really early, this is one of our favorite tomatoes. Good yields of beautiful, one inch, round, red tomatoes grow in clusters of 6-12 tomatoes.

Heirloom Organic (min. 25 seeds) \$3.25

Green Grape Tomato

80-90 days. A unique tomato, with 1 inch cherry tomatoes that ripen to an olive yellow color. It has a sweet and spicy flavor, really delicious. Determinate.

Heirloom (min. 25 seeds) \$2.75

Kim's Gardener's Delight Tomato

Red Pear Tomato

Red Pear Tomato

70 days. Small, red, pear shaped tomatoes with a nice sweetness and flavor. A beautiful compliment to the yellow pear tomato. One of the oldest tomatoes around, it dates back to colonial times.

Heirloom Organic (min. 25 seeds) \$3.75

Ildi Tomato

53 days. Amazingly flavorful, these small, grape shaped, bright yellow to orange tomatoes grow in clusters on 5-6 foot tall plants. These tomatoes store well on the plant and seldom fall off, and some even harvest whole branches of the plant to save indoors.

Heirloom (min. 25 seeds) \$3.25

Koralik Tomato

61 days. These are delightful cherry tomatoes. Huge yields of small, tart-sweet cherry tomatoes grow on vigorous vines. Originally from Russia, this tomato is early and does well in cooler climates.

Heirloom Organic (min. 25 seeds) \$3.75

Matt's Wild Cherry Tomato

70 days. This is a nice cherry tomato, reminiscent of the wild plant that became the domestic tomato. It's amazingly sweet, with lots of tiny red tomatoes on vigorously growing vines. It's best to cut off clusters, since they don't always pull off nicely from the plant. I always miss a few tomatoes, which self-seed a new crop the next year.

Heirloom (min. 25 seeds) \$2.75

Snow White Tomato

74 days. With ivory-white round tomatoes that ripen to pale yellow, this cherry tomato has a sweet and fruity flavor. One of the best tasting cherry tomatoes, it is Anne's favorite.

Heirloom (min. 25 seeds) \$3.00

Sweet Pea Currant Tomato

75-80 days. These tiny, extra sweet, red tomatoes grow in clusters of 1/4 to 1/2 inch tomatoes on sprawling plants. They worked well in hanging baskets, keeping the plants smaller and easier to manage. These have always been Lia's favorite. She used to climb out her window to steal them. Now she just grows them for herself.

Heirloom (min. 25 seeds) \$3.25

Tiny Tim Tomato

50 days. A wonderful container cherry tomato, the plants reach only 12 inches tall and produce small, nicely flavored red cherry tomatoes. If you don't have much room, plant a few of these in containers on your deck or hide a few amongst the flowers in your front yard. They are so small that they don't require any trellising.

Heirloom (min. 25 seeds) \$2.75

Yellow Pear Tomato

70 days. These unique and beautiful tomatoes are deliciously sweet. Little golden yellow pear shaped tomatoes grow on large plants.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 25 seeds) \$3.75

Black Pear Tomato

Principe Borghese Tomato

Slicing Tomatoes

Ailsa Craig Tomato

Dating back to 1925, this British heirloom tomato has been loved for almost a century. Noted for its excellent flavor and good yields, it is also one of the best greenhouse tomatoes. I found it to be an excellent stuffing tomato as well, with good yields of uniform, smaller tomatoes that are great in a salad or canned.

Heirloom (min. 25 seeds) \$3.00

Anna Russian Tomato

70 days. Early maturing, this beautiful oxheart, pink tomato is a delicious and wonderful selection for northern growers. With huge fruits, up to one pound, a rich tomato flavor, and lots of juice, it is sure to become a favorite.

Heirloom (min. 25 seeds) \$3.50

Arkansas Traveler Tomato

85 days. An excellent tasting tomato with a great balance of sweet and tart flavors, these 8 oz., round, pink-red tomatoes grow on vigorous indeterminate vines. Arkansas Traveler is over 100 years old and was originally grown throughout the south from Arkansas to North Carolina. It is known for being able to produce in adverse growing conditions of high heat, humidity or drought.

Heirloom (min. 25 seeds) \$2.75

Black Prince Tomato

70 days. One of the earlier black tomatoes, this heirloom hails from Siberia. It produces 5 oz. round, uniform tomatoes with that great black tomato flavor.

Heirloom Organic (min. 25 seeds) \$3.50

Boxcar Willie Tomato

80 days. Named after Boxcar Willie, the singer at the Grand Ole Opry, this tomato originates from New Jersey. It has oblong red fruit, about 12 oz., is very prolific, and has an old fashioned acidic tomato flavor.

Heirloom (min. 25 seeds) \$3.00

Burbank Tomato

75 days. Released in 1915, Burbank is a nice medium-sized slicing tomato that performs well in drier climates. It has a deep red color and great tomato flavor. Determinate, and good for canning.

Heirloom Organic (min. 25 seeds) \$3.75

Creole Tomato

80 days. Louisiana bred and prized, this heirloom has a wonderful, rich tomato flavor with great acidic balance. It does well in hot and humid climates.

Heirloom (min. 10 seeds) \$3.00

Czech's Excellent Tomato

70 days. A delicious, small yellow tomato, about 3 inches across. It has lower acid and the sweetness that is typical of yellow tomatoes. A great salad tomato, for fresh eating or even sauce.

Heirloom (min. 10 seeds) \$2.75

Homestead Tomato

80 days. Developed in the 1950s, this American heirloom is a great all-purpose tomato. Excellent for fresh eating or canning, it produces bright-red medium sized, round fruit. A good variety for our Southern growers.

Heirloom (min. 25 seeds) \$2.75

Czech's Excellent Tomato

Vernissage Yellow Tomato

Thessaloniki Tomato

78 days. This is my favorite slicing tomato. The flavor is really sweet, but still complex and rich. It has red, round, medium sized, tomatoes that are delicious. If you can only grow one tomato, this is an excellent choice.

Heirloom Organic (min. 25 seeds) \$3.25

Vernissage Yellow Tomato

75 days. This Ukrainian heirloom is a real stand out in the garden. It has really high yields of beautiful yellow tomatoes with green stripes. They grow in clusters of golf ball sized tomatoes on large plants. The tomatoes are deliciously sweet. A great tomato for snacking on in the garden, in salads, or even in a fresh sauce.

Heirloom (min. 25 seeds) \$3.50

Marglobe Tomato

73-77 days. I really like this tomato. It is round, red, about 3 inches in size, and has a great complex flavor. It's also fairly early, so it is a good choice for northern growers.

Heirloom (min. 25 seeds) \$3.00

Moonglow Tomato

85 days. This is one of the prettier tomatoes I've grown. High yields of almost blemish free, small, 3-4 ounce fruits, grow in clusters. Not only is it beautiful, it is really delicious as well. A very interesting addition to your heirloom garden.

Heirloom (min. 25 seeds) \$3.25

Super Sioux Tomato

70 days. An excellent variety for areas with hot summer temperatures. It produces round, beautiful tomatoes with solid, firm flesh and a good tomato flavor. It was one of the favorites when we took samples to the farmer's market.

Heirloom (min. 25 seeds) \$2.75

Burbank Tomato

Beefsteak Tomatoes

Red beefsteaks typically are reddish-orange in color. They have rich, well balanced flavor with enough acids to allow for canning and preserving.

Abe Lincoln Tomato

82 days. Right on the edge of being a beefsteak or a slicing tomato in size, we decided to put this one in the beefsteak section because its meaty flesh is more like a beefsteak. Released in 1923, it bears lots of beautiful and flavorful red tomatoes.

Heirloom (min. 25 seeds) \$2.75

Amana Orange Tomato

90 days. Named after the Amana Colonies in Iowa, these are huge, light orange, fluted beefsteak tomatoes. They can get up to 2 lbs each, and have a sweet, almost tropical fruit flavor.

Heirloom (min. 25 seeds) \$2.75

Aunt Gertie's Gold Tomato

75-80 days. Huge beefsteak, golden yellow tomatoes grace these large, potato leafed plants. With 1-2 pound tomatoes that are reported to be some of the best tasting tomatoes out there, this is one variety worth trying.

Heirloom (min. 25 seeds) \$3.50

Aunt Ruby's Green Tomato

85 days. Aunt Ruby's Green is a very mild, sweet and flavorful tomato with larger green tomatoes that ripen with a slightly yellow tint.

Heirloom (min. 25 seeds) \$2.75

Beefsteak Tomato

90 days. Also known as Red Ponderosa or Crimson Cushion, it produces large, meaty, slightly pleated, red tomatoes on vigorous vines. It is loved for its good sweet flavor and high yields.

Heirloom (min. 25 seeds) \$2.75
Heirloom Organic (min. 25 seeds) \$3.50

Black Krim Tomato

75 days. Highly prized for its great flavor, Black Krim is a spectacular beefsteak tomato. It has a complex, balanced, yet mild flavor that can't be beat.

Heirloom Organic (min. 25 seeds) \$3.25

Black Sea Man Tomato

75 days. Back by request of T.D., I couldn't say it better than him. "The Black Sea Man tomato is the most prolific of the black varieties I've grown, and I've tried most all of them. The plants have huge vines with many medium to large tomatoes, and are fairly heat tolerant. It, in my opinion, is the best tasting black tomato ever! My wife isn't big on tomatoes, but the "Black Sea Man", she will eat fresh from the garden. These have been my favorite tomato for the past four years or so." Determinate.

Heirloom Organic (min. 25 seeds) \$3.75

Brandywine Tomato

80 days. The standard beefsteak by which all other tomatoes are judged, Brandywine is renowned for its great flavor. Very large, oblong, pinky red fruit with a wonderful sweet flavor and meaty texture. A great choice for slicing for a sandwich or just eating fresh.

Heirloom Organic (min. 25 seeds) \$3.25

Ponderosa Pink Tomato

Cherokee Purple Tomato

Cuor di Bue Albenga Tomato

85 days. This Italian heirloom is known as a triple-purpose tomato. It produces large, red, pear-shaped fruit that have a wonderful, smooth, meaty texture that isn't dry, but not overly wet either. One of my favorites, it has huge, meaty tomatoes that are delicious fresh or in sauce, either canned or fresh. I also like it's rich tomato flavor that is only found in the Italian varieties.

Heirloom (min. 25 seeds) \$2.75

German Johnson Tomato

76 days. This variety produces very large 1-2 lb. fruits on huge plants. Plant them more than three feet apart and stake or trellis well. Tolerant of southern growing conditions.

Heirloom Organic (min. 25 seeds) \$3.75

Hillbilly Tomato

85 days. What a beautiful tomato. It is large and yellow, with red blush and striping on the bottom half of the fruit. It also has a great flavor, mild and well balanced. Add in its great yields, and it is an excellent choice for distinctive and beautiful tomatoes.

Heirloom (min. 25 seeds) \$2.75

Italian Heirloom Tomato

75 days. Italian Heirloom produces huge yields of large, one pound, oblong, red fruit. It is a beautiful slicer with a good balanced tomato flavor.

Heirloom Organic (min. 25 seeds) \$3.75

Kellogg's Breakfast Tomato

85 days. A West Virginia heirloom producing large, orange beefsteak tomatoes, it was named after Darrel Kellogg who first introduced this tomato. It is reported to be one of the best tasting heirloom tomatoes, frequently ranking in the top ten of taste tests. It is also reported to perform better in the North and not as well for Southern growers.

Heirloom (min. 25 seeds) \$3.50

Amana Orange Tomato

Tasty Evergreen Tomato

Striped German Tomato 🍅

78 days. Striped German is a huge, beautiful yellow and red beefsteak tomatoes with a wonderful sweet and fruity flavor. It needs trellissing and a lot of support to hold up such large tomatoes, and it produces a lot of them! Anikka stated that this is definitely her kind of tomato, absolutely delicious.

Heirloom Organic (min. 25 seeds) \$3.50

Canning Tomatoes

Bonnie Best Tomato 🍅

75 days. Also known as John Baer, Bonnie Best is one of the old canning tomatoes. It has the right balance of acid and sweet to aid in the canning process. Good yields of perfectly round, 3-4 inch fruit.

Heirloom (min. 25 seeds) \$3.00
Heirloom Organic (min. 25 seeds) \$4.50

Porter Tomato 🍅

72 days. Originally introduced by Porter and Sons Seed Company of Texas, Porter does well in hot climates. It's a great choice for container gardening, especially in the South. It produces high yields of small, 4 ounce, plum shaped tomatoes that are a good choice for canning.

Heirloom (min. 25 seeds) \$2.75

St. Pierre Tomato 🍅

74 days. A traditional French canning tomato, with medium sized round fruit. It is an excellent choice for slicing and canning. It's more acidic than most modern tomatoes. This extra acid aids in the canning process.

Heirloom (min. 25 seeds) \$2.75

Mortgage Lifter Tomato 🍅

82 days. Originally developed by Radiator Charley out of four other heirloom tomatoes, Mortgage Lifter takes the best traits from each of them. It is rumored that Charley paid off his mortgage by selling the seeds from his new, spectacular tomato. It does live up to its legend, a wonderfully large, extremely flavorful tomato. It has a great complex tomato flavor, rich and sweet.

Heirloom Organic (min. 25 seeds) \$3.25

Northern Lights Tomato

Nebraska Wedding Tomato 🍅

100 days. An old plains heirloom that in pioneer days was supposedly given to Nebraska brides as a wedding gift. A nice apricot-orange slicer, the fruit is juicy with a well-balanced flavor. Determinate.

Heirloom (min. 25 seeds) \$2.75

Pineapple Hawaiian Tomato 🍅

93 days. This is a fun tomato. It is yellow with a red blush at the tip, and it's huge. It has a wonderfully sweet flavor that has some fruity undertones to it as well.

Heirloom (min. 25 seeds) \$2.75

Ponderosa Pink Tomato 🍅

80 days. Producing huge beefsteak tomatoes, with fruits up to 1 lb, Ponderosa Pink has a delicious, full tomato flavor that is great sliced or on a burger. It has a good balance of sweet, rich and acid flavors. One of our family favorites.

Heirloom (min. 25 seeds) \$3.75

Rosso Sicilian Tomato 🍅

80 days. This Italian heirloom tomato is fun and delicious. It has a flat, but fluted shape that almost resembles a flower, and that great, rich Italian tomato flavor. It has a thin and delicate skin that can damage easily, so it really is to be enjoyed by the home gardener.

Heirloom Organic (min. 25 seeds) \$3.75

Tasty Evergreen Tomato 🍅

75 days. This is the tomato that turned Sam from a tomato hater to a tomato lover. She was eagerly watching each tomato ripen so she could savor them. Delicious and sweet, rich and flavorful, you'll be surprised at the wonderful tomato flavor from a ripe green tomato!

Heirloom Organic (min. 25 seeds) \$3.50

White Wonder Tomato 🍅

80-90 days. This pale yellow to ivory beefsteak tomato has very sweet, mild flavored fruit. One of the specialties of heirlooms, enjoy the surprise of a white tomato!

Heirloom Organic (min. 25 seeds) \$3.50

St. Pierre Tomato

Nebraska Wedding Tomato

Annie's Tomato Plants

Do you not have the time, space or ability to start your own tomato plants? Let us do it for you. Last year was our first year of shipping live plants, and it was such a great success that we're going to double our production. We still have a very limited supply.

Choose from a variety, or all beefsteaks, slicers, paste or cherry tomatoes.

See our website for details and to order.

Turnips

Fast and easy, turnips are a great way to grow a lot of food quickly in a relatively small space. Best grown in the cool of spring and fall, turnips are a wonderful way to feed the family. We like them mashed or roasted, and they are a great alternative to potatoes. A lot of people mix them in with mashed potatoes for added flavor.

Annie's Turnip Mix

A beautiful mix of colors, shapes and sizes, this mix has it all. A mix of white, yellow, and purple shouldered turnips.

Heirloom (min. 200 seeds) \$2.75

De Vertus Marteau Turnip

35 days. This early variety of turnip excels in both flavor and texture. Mild and fine grained, it is excellent either roasted or especially mashed. Its shape is longer instead of round, giving higher yields in a small space. A great multi-purpose turnip.

Heirloom Organic min. 200 seeds) \$3.00

Purple Top White Globe Turnip

45-65 days. A beautiful and very popular turnip, favored for its flavor by turnip lovers. White with purple shoulders, it has a slightly sweet root that can reach 5 inches across. It is delicious roasted and mashed.

Heirloom (min. 200 seeds) \$2.50

Heirloom Organic (min. 200 seeds) \$3.50

Heirloom Bulk (min. 1000 seeds) \$4.50

Purple Top White Globe Turnip

Watermelons

Watermelons hail from Africa and thrive in hot and humid climates. The larger watermelons really need a hot summer and plenty of water to reach their full potential. But there are many smaller, shorter season watermelons that are excellent choices for those with cooler climates. And if you live somewhere dry, you just need to take care to water well and amend your soil with plenty of organic matter to retain all that water so your watermelons can thrive.

Black Diamond Watermelon

90 days. These huge, round watermelons average 35-50 lbs. but can get even larger! With delicious red flesh and a dark green bruise resistant rind, this is a wonderful choice for huge watermelons.

Heirloom (min. 25 seeds) \$3.00

Crimson Sweet Watermelon

88 days. Crimson Sweet is a large, 20-25 pound watermelon with sweet red flesh. The rind is light green with dark green stripes. The vines can grow up to 10 feet, so this is one variety that needs room to grow.

Heirloom (min. 25 seeds) \$3.00

Heirloom Organic (min. 15 seeds) \$3.50

Dixie Queen Watermelon

80 days. Developed in the late 1800's this watermelon is large, growing up to 50 pounds. It is round with a pale green rind and dark green stripes. It has a bright red very sweet, crisp flesh with white seeds.

Heirloom (min. 25 seeds) \$3.00

Golden Midget Watermelon

70 days. A very early watermelon, this miniature watermelon has a lot of things going for it. A great choice for people with a short growing season or who just want early watermelons, it produces small, single serving watermelons that are about 3 pounds each. Its is also one of the only watermelons that tell you when it is ripe, the rind turns yellow. It has a great sweet flavor and is just a great choice all around.

Heirloom (min. 25 seeds) \$3.50

Crimson Sweet Watermelon

Petite Yellow Watermelon

Moon and Stars Watermelon

95 days. This stunning, large, old American heirloom watermelon was almost lost. One man saved this beautiful melon for all of us to enjoy. The rind is dark green with a large yellow 'moon' and many speckled 'stars.' The flesh is deep red with black seeds.

Heirloom (min. 25 seeds) \$3.50

Heirloom Organic (min. 15 seeds) \$5.00

Petite Yellow Watermelon

65-80 days. This was the standout of our watermelon trials this year. With our cooler climate, a fast watermelon is what we look for. It has beautiful bright yellow flesh and an amazing, sweet flavor that everyone loved. A new garden favorite!

Heirloom Organic (min. 15 seeds) \$4.25

Sugar Baby Watermelon

84 days. Deep red flesh, black seeds, and a dark green rind, Sugar Baby is sweet, juicy, and a great choice for a small icebox watermelon. It also turns from striped to solid dark green as it ripens, making it easier to pick. It is very reliable and of the easiest watermelons to grow.

Heirloom (min. 25 seeds) \$2.75

Heirloom Organic (min. 15 seeds) \$3.75

Tendersweet Orange Watermelon

90 days. This is a unique watermelon with bright orange flesh, black seeds, and a dark green striped rind. It produces 30 pound watermelons with a hollow core with a rind that is tough enough to allow for selling at a farmer's market.

Heirloom (min. 25 seeds) \$3.00

Companion Flowers

Flowers are more than just a thing of beauty that make us smile, they are garden companions, beneficial insect habitats, and even something to eat. Everyone loves seeing flowers, and usually we only plant them as ornamentals to make our homes beautiful, but flowers belong in our gardens too. I love seeing bright color mixed in with the vegetables, and I know that all that color is doing more than just looking beautiful. Many flowers attract the good bugs and drive away the bad ones. They are beautiful guardians of our vegetables. And there are even others that are edible. Some flowers taste good, and others have edible leaves. So if you haven't already, consider planting flowers with your vegetables.

There are so many ways to use Companion Plants. Here are the ways we use flowers and herbs in the gardens at Annie's.

Flowers

Alyssum - attracts hoverflies that control aphids. It is nice and small and can be planted everywhere.

Borage - controls squash bugs and repels tomato hornworms. We plant it between squash plants and with our tomatoes. It also self seeds everywhere in the garden after the first year.

Calendula - an aphid trap, it produces a sticky substance on its stem which attracts the aphids and traps them.

Marigolds - repels most bad bugs. We plant them everywhere. You can also till dead plants into soil to repel soil born pests.

Nasturtiums - attracts bad bugs away from your vegetables, also attracts pollinators. We always plant it under cucumbers and at the base of our pole beans.

Painted Daisy - nature's pesticide. Powder the flowers to use as a natural pesticide, or plant it all around the garden.

Petunia - repels tomato hornworms and Mexican beetles. We had a Mexican beetle problem, so we now plant it with our beans, tomatoes and all around the garden.

Sunflowers - provides support for corn plants. Corn has shallow roots and is prone to falling over in a strong wind, but sunflowers are deeply rooted and don't fall over. Birds perch on sunflowers and eat the bugs out of your garden. We always plant a few sunflowers in our corn patches, and usually scattered around the garden as well.

Zinnias - attracts pollinators. Also attracts Japanese beetles. We always plant them with our beans. The Japanese beetles sit on the tops of the zinnias, and we just go out every morning and shake them into a soap water jar to control them.

Herbs

Basil - repels all kinds of bad bugs, even mosquitoes. We plant all around the garden. Plant it by your tomatoes to improve the flavor, by kale to reduce cabbage moths, and anywhere you have room.

Chamomile - attracts beneficial insects, it is small and easy to grow, so we plant it everywhere.

Cilantro - repels all kinds of bad bugs.

Dill - attracts beneficial insects and repels bad bugs. We plant everywhere, especially by taller vegetables.

Companion Gardens

Bugs Be Gone Garden

Attracting predatory bugs and driving away the harmful ones, this collection of flowers and herbs will not only beautify your garden with colorful flowers, it will help you grow beautiful, organic vegetables without chemicals!.

Heirloom (20 varieties)

\$48.00

- Huge flowers, 30 inches tall.
- Peppermint Stick** \$3.00
- Striped flowers, 30 inches tall.
- Pompon Cut and Come Again** \$2.50
- Medium double and triple flowers, 30 inches tall.
- State Fair Mix** \$2.50
- Huge flowers in red, orange, yellow, pink, white and bicolor, 36 inches tall.

Perennials

Coming back, year after year, perennials are a wonderful way to grow a beautiful, easy care yard. They only get more full and beautiful with time. Perennials are also excellent companion plants. Plant a patch in or around your vegetable garden to create a home for beneficial insects that prey on the bad bugs that attack your garden.

Black-eyed Susan

Everyone loves the Black-eyed Susan. Beautiful yellow flowers with black centers, a cheerful and fun biennial. They reseed themselves, for an easy care planting. 1-3 feet tall. Hardy to zone 5.

Heirloom (min. 100 seeds) \$2.50

Butterfly Milkweed

There are several varieties of milkweed that are suitable hosts for Monarch butterflies and this is the most beautiful and garden friendly variety. With beautiful bright orange flowers, it is a joy to look at in your garden, and a wonderful way to help protect these special butterflies.

Heirloom (min. 50 seeds) \$3.50

Columbine, Grandma Sally's

Grandma Sally was Scott's great grandma, and these are the seeds from her columbine. They are light pink and have been saved and grown for years by Scott's mom, Audrey. They are care-free and self seed after the first year.

Heirloom (min. 25 seeds) \$3.00

Columbine, Mountain Blue

These are one of the wonderful native flowers of North America. With its beautiful two toned blue spurred flowers, Mountain Blue is the original wild columbine.

Heirloom (min. 25 seeds) \$3.00

Delphinium (Larkspur)

Delphinium are beautiful flowers, sending up stalks covered in flowers in shades of whites, blues and pinks. It is native throughout the Northern hemisphere. It is an early bloomer, giving a beautiful show of flowers. 12 weeks, 36 inches tall.

Heirloom (min. 150 seeds) \$2.50

Hollyhock

Black Eye Susan

Dianthus, Sweet William Single Mix

Also known as cottage pink, or carnations, these delightful perennial flowers have a wonderful fragrance and are very attractive to bees, butterflies, and birds. 14 inches tall. Hardy to zone 4.

Heirloom (min. 75 seeds) \$2.75

Foxglove

Beautiful bell shaped flowers grow on tall spikes on this biennial flower. It is a wonderful border plant in a shade garden. It can also be used as a companion plant. It is said to improve the growth and disease resistance of whatever it is growing by. It self-sows, so you can expect years of joy from these flowers. Foxglove leaves contain digitalis, a potent heart medicine, and are considered poisonous.

Heirloom (min. 75 seeds) \$3.00

Gaillardia, Perennial

Gaillardia has beautiful daisy-like flowers that bloom in mid to late summer. Hardy to zone 3.

Heirloom (min. 50 seeds) \$2.50

Butterfly Milkweed

Lupine, Russell's Extra Choice Mix

With their beautiful flower spikes in pinks, yellows, whites, peaches and bicolors, lupine is a wonderful perennial. It does best in areas with cool summers. Hardiness zones 4-8. 30-36 inches tall.

Heirloom (min. 50 seeds) \$2.50

Perennial Sunflower, Maximilliani

These are beautiful plants with smaller yellow sunflowers. Related to sunchoke, they will soon take over where you plant them. Bees love them, so a planting is a great way to attract and feed bees while enjoying lots of fall color. 60 inches tall. Hardy to zone 3.

Heirloom (min. 50 seeds) \$2.75

Shasta Daisy, Alaska

Bright and cheerful with beautiful white flowers and yellow centers, Shasta Daisies are hardy perennials that form dense groups once established. They prefer full sun to partial shade and bloom in June and July. They make for a wonderful cut flower as well. Hardy to zone 3. 36 inches tall.

Heirloom (min. 200 seeds) \$2.50

Hollyhocks

A beautiful old fashioned flowering biennials, hollyhocks have a central spire surrounded by large flowers. Most hollyhocks are biennials, producing flowers in the second year. (min. 25 seeds)

Queenie Mix \$3.50

Pink, red, white and yellow flowers on shorter plants. 24 inches tall. Hardy to zone 4.

Single Mix \$3.50

Perennial, will bloom the first year when planted early enough. Large flowers with multiple colors, white, yellow, pink and maroon. 4-6 feet tall. Hardy to zone 3.

 Mostly Perennials Bulk \$9.00
 Bee & Beneficial Insects \$3.25
 Bee & Beneficial Insects Bulk \$8.25
 Hummingbird/Butterfly \$3.50
 Hummingbird/Butterfly Bulk \$9.00

Seed Bank Storage Bags

Would you like your own seed bank? Or maybe you just want the best way to store your seeds for the next few years. Now you have the freedom to create your own seed bank. You choose what you want, individual packets or some of the Annie's Gardens. Package them how you want, we recommend according to shelf life. Different vegetable seeds have different shelf lives. Now you can refresh your seed bank ensuring that your seeds are viable.

The smaller mylar bags hold up to 5 of our small seed packets. If you want to make sure your seeds stay dry, package each small bag with a dessicant packet. The large bags can be used to hold everything together. We provide an information sheet on shelf life for various vegetables so you can arrange your seed bank however you wish.

Small Mylar Seed Bags (5 in x 7 in) \$0.35
 Large Mylar Seed Bag (12 in x 18 in) \$2.00
 Dessicant (5 packets) \$1.00

These are the original heirlooms, the flowers that grow wild along the roadside across our country. A field of wildflowers is a thing of beauty. Full of color, diverse in shapes and sizes, some live for a season while others reseed and yet others come back year after year. These are the flowers the bees love, the flowers that attract butterflies and provide food for all the little bugs that are so important to our gardens.

We've reformulated our mixes to include only the flowers that reliably sprout, giving you better coverage and a fuller planting. All packets have a minimum of 4500 seeds and can plant a plot of 50-150 sq. ft. Bulk packets have a minimum of 15,000 seeds and can plant a plot of 200-600 sq. ft.

You, having FUN in your gardens...

and we all love seeing them! Each one is a unique expression of the person planting and tending it. I love getting to know you through what you grow!

2020 Photo Contest:

Send us your pictures of Annie's veggies!

Email us your high resolution photos at customerservice@anniesheirloomseeds.com

The winners receive a \$20 store credit for every photo we use. Maybe you'll see your garden in the 2020 catalog!

Why Annie's?

I started Annie's to make the seed company I wanted to buy from. The staff at Annie's are all previous customers. We are all committed to continue being the company you can trust.

Fast Shipping

We strive to provide fast shipping so you don't have to worry about forgetting something and it not getting to you in time.

Excellent Seeds

We work hard to make sure everything comes up. We strive for high germination rates so you know that you have the best seeds.

Excellent Service

We also work hard to answer all your questions and provide the best customer service we can. Give us a call and we'll be happy to help you!

Annie's Planting Guide

No matter the time of year, there's always something to plant in the garden.

Spring and Fall

The cool weather vegetables thrive when planted in the spring and in the fall.

Lettuce	Cabbage	Peas
Spinach	Broccoli	Carrots
Greens	Kale	Beets
		Radishes

In the spring start your tomatoes, peppers and eggplant indoors.

Everyone can have a fall garden, but where you live determines when to plant and how much you can grow. For those in the North, the fall garden begins in the summer. Start your cabbages and roots in July and August to harvest all fall. For those in the South, you can have a fall tomato season, as well as planting and harvesting cabbages, roots and greens well into the late fall.

Summer

The summer loving vegetables thrive once the temperatures rise and the danger of frost is past.

Beans	Transplant Tomatoes,
Cucumbers	peppers and eggplant.
Corn	
Carrots	Start your fall cabbage,
Squash	brussels sprouts, broccoli,
Beets	kale...
